5. Forwarding itinerary confirmation email

When you book a trip outside your organisation's appointed travel agencies, you can forward your itinerary confirmation email to a specific International SOS mailbox, instead of manually entering your trip details into your MyTrips account. Once you forward the confirmation email to International SOS mailbox, the trip details will get processed automatically. Please check with your program administrator if your organisation has activated this functionality.

When you book a trip through an online travel site or other sources (i.e. an airline, a hotel, or a convention bureau), you would normally receive a confirmation email. Please make sure to save those emails in your records.

Before starting to use this functionality please take the following steps:

1. Register with International SOS' MyTrips tool (Please see Section 1).
2. **Make sure to set up your MyTrips username as the email address to which you normally receive the itinerary confirmation emails.**

If you already have a MyTrips account under a different email address, you can create a new MyTrips account by using a different email address as your user name.

3. When creating your account, provide your personal email address, organisation email address and phone number on "My Profile" page. This will allow your organisation to contact you efficiently during a crisis situation.

After this one-time registration with MyTrips, you can start forwarding your itinerary confirmation emails to the International SOS mailbox for automated processing.

Things you should note when forwarding the confirmation emails to International SOS mailbox:

- The preferred language for the confirmation email is English. Other languages are available on a case-by-case basis.
- Only flight, hotel and car rental bookings can be forwarded to the mailbox. Train bookings are not supported at this time.
- You should forward the original confirmation email without making any changes to the email. If you change the original email content or format, the trip details will not get processed. As an example, if you two separate confirmation emails for two different trips, you should forward each original confirmation email to the mailbox separately.
- If the confirmation email includes a PDF document, please include the PDF document when forwarding the confirmation email.

- Whenever you forward an itinerary confirmation email to the mailbox, you will receive an automated email from MyTrips regarding the processing status of the trip details. You can always log in to your MyTrips account to view or edit the trip details. The trips will be labelled as “Forwarded Itinerary” for easy identification.
