

Michael Zhou

A May 2020 report published by the Australia-China Relations Institute at the University of Technology Sydney pointed to demand from the People's Republic of China (PRC) - underpinned by deep economic complementarities and purchasing power - as the chief driver of growth in Australian exports. This extends to South Australia (SA), with a prominent example of this being rapid growth in PRC consumer demand for South Australian wine. This factsheet provides an overview of SA's economic relationship with the PRC.

- 1. In the year to May 2020, the value of South Australian goods exports to the PRC was \$3.0 billion,² equivalent to 2.7 percent of Gross State Product.3
- 2. Exports to the PRC account for 27.2 percent of total SA goods exports. This compares with:4
 - 8.3 percent to the US;
 - 7.1 percent to Malaysia; and
 - 5.6 percent to Canada.
- 3. SA goods exports reached \$11.2 billion in 2019, having grown by 34.6 percent over the last decade. Growth in goods exports to the PRC is responsible for 57.3 percent of this.5
- 4. In 2019, agriculture, forestry and fisheries exports accounted for 49.2 percent of SA's goods exports to the PRC, followed by minerals and fuels (25.1

- percent), manufactures (24.2 percent) and other goods (1.6 percent).6
- Alcoholic beverages alone accounted for 30.3 percent of total goods exports to the PRC.
- 5. In the first five months of 2020, SA's goods exports to the PRC grew by 15.1 percent compared to the same period last year, despite the economic shock of the COVID-19 pandemic.7 This was driven by exports of copper, iron ore and alcoholic beverages which together accounted for 59.7 percent of goods exports to the PRC during this period.8
- 6. SA's service exports were worth \$3.6 billion in 2018-19, led by personal travel related to education worth \$1.9 billion and personal travel unrelated to education worth \$804 million.9
 - As of April 2020, there were 10,760 PRC students in SA, with 7352 of these in higher education institutions. PRC students accounted for 29.7 percent of all international

- students and 33.3 percent of those in higher education institutions.10
- In 2019, there were 66,000 visitors to SA from both the UK and the PRC. Visitors from the PRC spent a total of \$384 million. In comparison, those from the UK cumulatively spent a total of \$72 million.11
- 7. SA received \$38 million in PRC investment in 2019, representing one percent of PRC investment in Australia and a 94.1 percent decrease from 2018. This is also the lowest level of PRC investment in SA since 2014.12
