

Preferencing Tips

UTS Future Students Team

01

Put your favourite course as #1

UAC uses a preferential system which means they consider your first preference, first. Think of your preference options as your offer wish list!

02

You can accept as many offers as you get!

You can receive as many offers as there are offer rounds for you. However, you can only receive one offer per offer round, which is all the more reason to put the course you most want to do first!

03

It's not the end of the world!

When you're in Year 12, it can seem like getting an offer into your dream course is the be all and end all. It isn't! There are a number of pathways you can take to end up in your dream course. Just because you didn't get an offer in the UAC rounds, doesn't mean you won't be able to study what you love.
