Looking ahead, my dream is to work in an energy company one day, contributing to its success and driving impactful changes through strategic decision-making. I aim to be at the forefront of change in the climate action space and I'm confident that my accounting skills will be key in turning this dream into a reality.

Accounting's made my life more interesting in ways I never imagined, and I'm sure it can do the same for you. Even if you're not 100% sold on studying accounting, it'll set you up with valuable business skills that can supercharge any career you choose.
