The Graduation Ceremony

The Graduation Ceremony is a celebration of the success of our graduates in fulfilling the requirements of their awards. Our ceremony observes many traditional elements and rituals representing continuity of generations of universities, but adapted in a way that reflects the culture and values that makes UTS such a special place. The attendance at a graduation ceremony has become a rite of passage for generations of students.

The Academic Procession signals the formal commencement of the UTS Graduation Ceremony. The procession comprises senior leaders, academic and professional staff of the University.

Observing the grand tradition of graduation ceremonies, many participants in the procession wear ceremonial regalia that represent the origins and diversity of their academic qualifications. The senior presiding officers, such as the Chancellor and Vice-Chancellor, wear robes designed specifically for UTS that symbolise their important leadership roles.

Acknowledgement of Country

UTS acknowledges the Gadigal people of the Eora Nation, the Boorooberongal people of the Dharug Nation, the Bidiagal people and the Gamaygal people, upon whose ancestral lands our university stands. We would also like to pay respect to the Elders both past and present, acknowledging them as the traditional custodians of knowledge for these lands.

Belonging – The Graduation Music

In 2019, UTS commissioned the distinguished Australian composer, Nigel Westlake, to compose a new processional and a recessional that reflect the University's vibrancy and values. Both the processional and recessional are contemporary pieces that reflect the energy of the University.

UTS is still young by world standards and we embrace elements that reflect both the continuities of tradition from the evolution of universities and respect for many thousands of years of Indigenous knowledge.

The processional commences with the beautiful and evocative sounds of the Yigi Yigi (Western Yalanji language word for didgeridoo) by David Dahwurr Hudson. This immediately situates the location of the University on the land of First Australians, specifically the land of the Gadigal people of the Eora Nation where the UTS City Campus is located. First Australians have, for

thousands of years, nurtured their own traditions of knowledge acquisition and sharing. The processional piece then transitions to instrument orchestration that reflects the historical origins of our university structure. Finally, the Yigi Yigi can be heard in harmony with other instruments symbolising the coming together of two ancient traditions both rich in their celebration of learning, discovery and passing knowledge to the generations that follow.

Finally the recessional triumphantly marks the conclusion of the ceremony and the commencement of our graduates' transition to a new phase in their lives, taking with them the skills and attributes developed at UTS that will form critical pillars for future success.

The University of Technology Sydney would like to express its sincere appreciation to:

Nigel Westlake – Composer, musician, conductor

David Dahwurr Hudson – Yigi Yigi soloist, musician, artist, entertainer, presenter

Sydney Symphony Orchestra (SSO) conducted by Nigel Westlake

Co-creators with SSO:

Lachlan Carrick
Recording & mixing engineer

Jessica Wells
Recording producer

Chancellor's Message

Congratulations!

Your graduation is one of the most important moments in your life. Finishing a degree or diploma is a major achievement and we do not underestimate the hard work and sacrifices that you have made in reaching that goal. It is also an important occasion for your family and friends who have given their support, love and understanding during your studies.

Graduations are important times for everyone associated with them – both graduates and the wider university. For many, it is the start of careers; for others, part of the career development path. It brings status and rewards, and builds capabilities and new skills. Graduation brings with it both opportunities and obligations; opportunities to enter professional fields and obligations to contribute to the society that has supported you.

The opportunities that you face have never been greater. The workplace is more diverse than it has ever been, and ever increasing international opportunities mean that many of you will live and work in countries other than those in which you were born.

Conversely, the challenges in the workplace have never been greater.

Scrutiny and the expectations of society are already high and continue to grow. The future will depend upon knowledge being used constructively in the best interests of the current and future generations. It is knowledge, ideas and skills that will ensure a better society and living standards for all.

UTS graduates are held in high esteem by employers, not only because of the quality of the education that they have received but also because of its practical nature. Employers recognise, in UTS graduates, key characteristics including adaptability and flexibility in dealing with work and also workplace issues.

I am sure that UTS graduates will be able to deal with those ethical dilemmas that may arise in their workplaces. Make yourselves, your families and your university proud by maintaining the highest professional and ethical standards.

Your relationship with UTS does not end today. In many ways, it is just beginning. Today we welcome you to the UTS alumni community; a powerful and extensive global network of creative and innovative UTS graduates making their mark on the world. I encourage you to utilise the exclusive benefits your membership of this community delivers, and to continue to stay involved with UTS.

On behalf of all of UTS, I congratulate you, and wish you every success in applying the skills and knowledge that you have gained from one of Australia's finest universities.

Best wishes,

Catherine Livingstone AC
Chancellor

Vice-Chancellor's Message

On behalf of the UTS community, congratulations to all of our graduates. Graduating with a degree from university is a significant milestone and one you should be very proud of. I hope you continue your thirst for knowledge, discovery and innovation as you commence or continue your career journey. As a valued member of the global UTS alumni community we look forward to supporting and engaging with you as a leader who will shape the future of our society.

Kind regards,

Andrew Parfitt
Vice-Chancellor and President

Social Justice

As a public purpose institution, UTS is committed to driving social change within and beyond campus. Our social impact agenda focuses on research, education and practice from across the university to benefit people and communities. We are the first Australian university to formally set its own social impact agenda, through the Social Impact Framework.

The UTS Centre for Social Justice and Inclusion coordinates and implements the Social Impact Framework and maximises the capacity of UTS to deliver public benefit. Through the UTS Social Impact Framework, UTS will:

- Contribute to increased public good, social mobility and equity
- Support the creation of enabling environments for communities to thrive
- Positively influence and impact the public, the individual, and the systemic forces that shape justice

At the same time, the centre is pivotal in creating a culture at UTS that values social justice, impact and inclusion and ensures equal opportunity and access for everyone.

UTS Emblem

The UTS Emblem is a symbol that represents our history and commitment to technology, innovation and collaboration.

There are three components of the UTS Emblem:

- The anchor from the City of Sydney coat of arms
- The Double Helix inspired by the DNA molecule
- Three waves representing Sydney's maritime location

This section of the Emblem represents a DNA molecule, the basic building block of life itself. For UTS this is strongly symbolic of our innovative, technological and collaborative character. The interlinking sections also represent the flow of ideas and collaboration between faculties, disciplines, students and industry.

The top of the Emblem is drawn from the anchor on the City of Sydney coat of arms. It represents a historical tradition of discovery and exploration, and reinforces our close ties with government, commerce and industry.

The wave element at the base of the Emblem is symbolic of Sydney's maritime location. The three-part wave formation represents equality and strength in unity.

Academic Regalia

Ceremonial Mace and Staff

Originally a weapon of offence, the mace took on a ceremonial function in the sixteenth century. At UTS, it represents a medieval battle tradition, the Chancellor's authority and the good name of the University. The mace was a gift to the inaugural UTS Council by the New South Wales Department of Technical and Further Education to mark the establishment of UTS in 1988. Made of silver and titanium it represents the blend of traditional and modern technology, and it's most prominent design feature is a double helix, the code of life.

The staff was gifted to UTS by the UTS Alumni Association in 1994. It is made of silver and Australian jarrah and also symbolises authority.

Academic Dress

The academic gowns worn today have their origins in the costumes of twelfth century Europe. The trencher (hat) grew out of the pileus worn at Oxford and Cambridge universities around the seventeenth century. The festal gowns worn by the Chancellor, Deputy Chancellor, Pro-Chancellors and Vice-Chancellor are based on traditional British gowns, but contain embroidered Australian wattle (*acacia pycnantha*), Australia's national flower.

Other professional and academic staff in the procession wear the gowns that commensurate with the highest level of award they have earned. Often their gowns are from other universities in Australia or abroad, adding to the variety of each UTS ceremony.

Graduate Dress

UTS graduates wear black gowns in the Cambridge style but their hoods are unique to the university. The number and colour of the bands on the edge of the lining designate each graduate's faculty level of the award. Sashes and inserts are worn by undergraduate, associate diploma, and double degree recipients. All graduates wear a black trencher cap (also referred to as a mortarboard).

UTS Hood Colours

	Business		Health & Graduate School of Health
	Communication		Information Technology
	Design, Architecture & Building		Law
	Education		Science
	Engineering		Transdisciplinary Innovation

Creative Intelligence and Innovation Sash

Bachelor of Creative Intelligence and Innovation

This sash represents students who have completed a combined degree, which includes the Bachelor of Creative Intelligence and Innovation, and one of the 25 core UTS undergraduate degrees. The colour of the sash corresponds with that of the Faculty of Transdisciplinary Innovation.

Innovation Sash

Diploma in Innovation

This sash represents students who have completed a combined degree, which includes the Diploma in Innovation, and one of the 25 core UTS undergraduate degrees. The colour of the sash corresponds with that of the Faculty of Transdisciplinary Innovation.

Indigenous Sash

Aboriginal

Torres Strait Islander

Our Indigenous graduates wear sashes at graduation to proudly celebrate their identity and ancient cultural heritage alongside their academic achievement. The sashes are based upon the colours of the Aboriginal flag and the Torres Strait Islander flag – both are official flags of Australia.

International Studies Insert

Bachelor of Arts in International Studies

The light grey insert signifies the Bachelor of Arts in International Studies which is part of a double degree. The hood colour reflects the second degree from one of the 25 core UTS undergraduate degrees.

PhD Gown and Bonnet

PhD Gown (left) and Bonnet (right)

The PhD (Doctor of Philosophy) is a University-wide degree that involves an intense period of supervised study and research. The degree of Doctor of Philosophy is awarded to successful candidates who have made a distinct contribution to knowledge, whether by original investigation, review or criticism. Doctoral graduates wear a black bonnet.

Honorary Awards

Honorary Doctors

Fellow of the University

UTS confers honorary awards and titles on people who have contributed to the achievement of the university's vision and objectives, to scholarship or professional practice, or to the advancement of society in Australia or overseas. Following are the three awards which are conferred at a Graduation ceremony:

- Honorary Doctors
- Fellow of the University
- UTS Distinguished Service Award (no regalia)

Academic Documentation

Testamur, Academic Transcript and Australian Higher Education Graduate Statement

TESTAMUR

The UTS Testamur (referred to at some institutions as a 'certificate') is produced under secure conditions with the utmost care to ensure graduates receive a document of presentation quality worthy of framing. It is both an official document of the university and a keepsake.

ACADEMIC TRANSCRIPT

Like the Testamur, the Academic Transcript is also an official document of the university produced under secure conditions. Unlike the Testamur, the Academic Transcript is frequently sought by prospective employers and other higher education institutions as evidence of a graduate's academic achievements while at UTS. It details the name of the degree awarded, the subjects undertaken, the marks and grades earned and the calculated Grade Point Average (GPA). The reverse of the document provides information about reading and interpreting the information detailed on the Academic Transcript.

AUSTRALIAN HIGHER EDUCATION GRADUATION STATEMENT

The Australian Higher Education Graduation Statement (AHEGS) was introduced by the Commonwealth in 2010 to make Australian qualifications recognised and renowned throughout the world.

Like the Academic Transcript, the AHEGS details academic performance, which provides potential employers and other institutions with a greater understanding of the achievements of each graduate. However, unlike the Academic Transcript, the AHEGS also includes many of a graduate's extracurricular achievements, such as scholarships and prizes won, elected offices held (e.g. elected student representative on UTS Council), and participation in leadership programs such as Beyond UTS International Leadership Development (BUILD).

MY EQUALS

UTS provides all graduates with a printed copy of their Testamur at graduation ceremonies and digital copies of all three official academic documents soon after conferral (prior to graduation ceremonies) via My eEquals. Graduates register with My eEquals and, when their documentation becomes available, they can easily and securely share their certified digital copies with prospective employers, universities to which they apply for graduate studies, etc.

For more information about academic documentation visit the UTS website (uts.edu.au) and search for 'student records'. To register with My eEquals, visit myequals.edu.au.

Honorary Awards

The Honourable Justice Jane Needham

Doctor of Laws

The Honourable Justice Jane Needham, a Judge of the Federal Court of Australia, is an inspirational legal professional who has made a deep impact on the legal sector at a state and federal level. Her career spans significant roles including NSW Bar Senior Counsel, Deputy President of the Administrative Decisions Tribunal, and President of the New South Wales Bar Association. Justice Needham has been instrumental in improving gender equity in the legal profession through initiatives including equitable briefing policies and dedicated childcare for Bar members. She established groundbreaking guidelines on bullying and harassment, now adopted by the Australian Bar Association. Her contributions to law and advocacy for women's advancement earned her the 2015 UTS Alumni Law Award. In July 2024, she became the first UTS graduate appointed as a Judge to the Federal Court of Australia, marking a significant milestone in her distinguished career.

Michael Rose AM

Doctor of Letters

Mr Michael Rose AM is a recognised policy advocate, thought leader and independent director whose work involves the interactions between government, business and civil society, and is particularly focused on the future sustainability, prosperity and social equity of Sydney.

Following a legal career spanning 3 decades, he is now actively involved in a wide range of community and policy initiatives involving urban policy, urban infrastructure cultural life and placemaking for Sydney and Indigenous self-determination and reconciliation.

Mr Rose has been an influential supporter of the Tech Central precinct, in which UTS is a key partner, advocating for its place as a creative hub that supports the people and businesses studying and working here. Mr Rose has been a member of the UTS Faculty of Design, Architecture and Building's Industry Advisory Board for over 5 years, helping to shape the external engagement agenda with industry and government.

Sally-Ann Williams

Doctor of Technology

A leader in technology and innovation, Ms Sally-Ann Williams has dedicated her career to harnessing the power of technology to solve real-world problems and enhance the lives of people in Australia and around the world. Throughout her 12 years at Google, Ms Williams supported research and innovation at universities and helped put Australian startups on the map.

More recently, as Chief Executive Officer of Cicada Innovations, she's helped technology startups raise over \$2 billion in capital. Through Cicada she's significantly contributed to the growth and success of numerous startups and brought together the wider innovation and founder community in Sydney.

Ms Williams has been widely recognised for her incredible contribution to her field as a Fellow of the Australian Academy of Technological Sciences and Engineering and a member of the NSW Innovation and Productivity Council. She was also recently appointed as a member of the Australian Research Council Board, responsible for distributing around \$800 million in annual research grants.

The work she has done so far will continue to impact the world through new innovations and technology.

Jozefa Sobski AM

Doctor of Education

Ms Jozefa Sobski AM is a widely respected educator, policy advisor and trailblazer for women's rights and social justice. A UTS alumna, she graduated in 1997 with a Master of Education. She has had a profound impact on education and social policy throughout her professional career. She is a passionate defender of social justice, using her experience and voice to fight for equality of access to education and training, adequate government funding and support for our public institutions. She is an executive member of the Women's Electoral Lobby and was Chair of the Board of Jessie Street National Women's Library for 17 years. Ms Sobski was appointed a Member of the Order of Australia (AM) in 2018 for her service to women's rights and migrant advocacy, and her contributions across higher education and skills-based training.

Grace Lillian Lee

Doctor of Design

Grace Lillian Lee is a proud Meriam Mer woman from the Eastern Islands of the Torres Strait. A widely recognised and celebrated Australian Indigenous artist and designer, her dedication to her craft is a true celebration of culture. Lee's wearable artworks, adornments and sculptures are revered for their intricate and highly technical nature, inspired by the weaving style of her ancestors, stories of family and longing for a greater sense of belonging. Her work has taken her around Australia and the world, recently collaborating with renowned French designer Jean Paul Gaultier on a sculptural couture piece for the Brisbane Festival. The inaugural recipient of the National Carla Zampatti Women in Leadership Award in 2021 and National Indigenous Designer of the year award 2024, she is a respected and dedicated representative on boards and advisory groups. She works tirelessly as an economic intermediary, cultural broker, facilitator and educator in her field. Lee is also a longtime collaborator with UTS, working with the School of Design, sharing her time and talent to support the next generation of fashion and textile designers.

Trevor Danos AM

Fellow of the University

Trevor Danos AM is an accomplished lawyer, company director and strategic adviser with extensive experience across multiple sectors including finance, infrastructure, health and science.

As chair of the Northern Sydney Local Health District since 2016, Mr Danos has been instrumental in fostering collaboration between educators, researchers, industry players and philanthropists. He is a pivotal supporter of the UTS Faculty of Health, strengthening strategic relationships and championing innovative initiatives like establishing conjoint positions and improving clinical placement experiences for student nurses.

A Member of the Order of Australia since 2014, Mr Danos continues to be involved in driving sustainable change. From the Square Kilometre Array telescope project to the Champions of Change STEM and Health Group, he is dedicated to making a positive mark in the world. His diverse roles, including chairing the NSW Treasury Social Impact Investment Expert Advisory Group and sitting on several boards, reflect his commitment to sharing his deep expertise across different fields.

Sara Goldsworthy

Fellow of the University

As a leader in public policy, technology, and national security, Ms Sara Goldsworthy has made an exceptional contribution to Australia and the rest of the world. During her 16 years working for the Australian Government as a Senior Executive Service Officer, she made a significant impact on the areas of intelligence, diplomacy and national security policy. She has played leading roles in counter-terrorism strategy and coordination, national security community architecture reform, and the NSW Government's policy response to COVID - helping to keep Australians safer through extremely challenging times.

Ms Goldsworthy led Australia's engagement with the Pacific on security issues, oversaw establishment of the Home Affairs portfolio, and coordinated the Australian intelligence community's critical technology activities. In industrial policy, she managed the government's engagement with the tech sector in critical fields like quantum and AI and led the coordination of Australia's G20 agenda. Actively engaged with academic institutions, Ms Goldsworthy has made a significant contribution to UTS as an Alumni Ambassador and a Visiting Fellow of the School of Computer Science in the Faculty of Engineering and Information Technology. She is an inspiration and an exceptional role model for current and future generations of UTS students.

Nigel Oliver

UTS Distinguished Service Award

Nigel Oliver is the Director of Property at UTS with over 30 years of experience in property and construction. A Fellow of the Royal Institution of Chartered Surveyors, he has been pivotal in transforming the university's campus through the \$1.5 billion City Campus Master Plan. Mr Oliver's leadership has delivered award-winning projects, including the Dr Chau Chak Wing Building designed by widely celebrated architect Frank Gehry. Today, he continues to drive innovative initiatives, including the National First Nations College, a landmark project creating a dedicated space to increase Indigenous student participation in higher education. His work has helped turn UTS into a visually appealing, functional campus with world-class facilities that support teaching, research and engagement. This is a testament to his extensive experience, and a commitment to excellence, diversity and sustainability in university infrastructure development.

The beginning of a journey of connection and lifelong learning

You've just taken a giant leap from life as a UTS student to a new beginning as a UTS graduate. Today you join a worldwide community of over 280,000 UTS alumni, connected to the thousands of UTS graduates who've come before you, and many more who will graduate in the future.

During your years of learning and discovery at UTS you have achieved educational goals and formed enduring friendships. Your UTS experience, whether it has been on-campus or online, will continue to shape the amazing person and professional that you become. We hope that the foundation you have built through your time at UTS will lead you to a future of lifelong learning.

We encourage you to take advantage of the many benefits of staying connected with UTS and your global alumni community. Whether it's through networking events, mentorship, professional connections or continuing education programs, there are many ways to stay involved and engaged. We look forward to staying in contact, to hearing about your accomplishments and to supporting your professional path.

Countless opportunities await you. As you move forward in life, we encourage you to continue to pursue your dreams, to be passionate about your pursuits, and perhaps above all, to make a positive impact in the world.

You have earned the title of UTS Alumni and we hope that you will wear it proudly. Whatever stage in your career and no matter the distances you travel, you will remain a lifetime member of the UTS community.

Best Wishes,
UTS Advancement

FACULTY OF DESIGN, ARCHITECTURE AND BUILDING

DOCTOR OF PHILOSOPHY

DOCTOR OF PHILOSOPHY

Alessia Cibin

Thesis: The night-time economy in Sydney, Australia: Policies and actors prior to, during and post Covid-19 pandemic.

Kimberley Tara Crofts

Thesis: Examining the role of public participation and design in planning sustainability transitions

Kiran Kashyap

Thesis: Designing for Earth Democracy transitions: Processes to foster an economics of radical interdependence

Saul Mazabow

Thesis: Waste to Paste: Sustainable and Circular Novel Material Composites for Explorative Prototyping in Product Design Practice.

Nahum James Mclean

Thesis: Material Kin: Fashioning Foam for Buoyancy. Developing Bio-based and Biodegradable Foam Materials for Climate Breakdown.

Juhri Selamet

Thesis: Considering Indigenous Approaches and Human-Centred Design (HCD) to Design for Local Health Systems in East Kalimantan

Ailsa Catherine Weaver

Thesis: Looking for the Tv Sound: Fashion, Identity and the Language of Music Video

Bingyang Ye

Thesis: Real Estate Asset Pricing – Evidence from Australian and US Real Estate Investment Trusts (REITs)

POSTGRADUATE

MASTER OF BUILT ENVIRONMENT (RESEARCH)

Elaheh Samandi

Thesis: Using IoT sensing and occupant surveys to evaluate the temporal and spatial correlations between indoor air quality and occupancy comfort in campus buildings

MASTER OF DESIGN (RESEARCH)

Nina Smith

Thesis: Finding Ways to Simulate Garment Construction Techniques within Fashion Design Education

Mia Zhou

Thesis: Assessing Triple Bottom Line Sustainability of Cotton Clothing Manufacturing – Advancing an Input-Output Production Analysis Methodology

FACULTY OF ENGINEERING AND INFORMATION TECHNOLOGY

DOCTOR OF PHILOSOPHY

DOCTOR OF PHILOSOPHY

Seyedhesamaldin Abtahi

Thesis: Identification of Low-wavenumber Wall Pressure Field beneath a Turbulent Boundary Layer

Madyan Abdullah Othman Al-Senwi

Thesis: Reconfigurable Intelligent Surfaces-Aided Smart Wireless Environments for 6G Systems

Ruba Sari Ahmad Al-zqebah

Thesis: A Novel Approach for Production Planning and Productivity Improvements in Dynamic Production Systems using DES and Heuristic Methods

Inam Alsayed Alanazi

Thesis: Intelligent Blockchain for Managing Carbon Credits

Asma Abdullah Alkhalaf

Thesis: A Methodology for Optimized VM Scheduling in Small and Medium Fog Environments

Adel Saeed A Alzahrani

Thesis: Artificial Intelligence-Enabled mobile technology applications for Self-Care Management in Saudi Arabia, the Sehhaty Wa Daghty app.

Hassan Bahrami

Thesis: Computational design in digital and bio fabrication

Carin Alsani Basirun

Thesis: Investigating Cardiovascular Mechanotransduction: Insights from Cardiac Models under Simulated Microgravity and Radiation

Abdullah Hatim A Bin Sawad

Thesis: AI Conversational Agents in Healthcare for Type-2 Diabetes

Emily Rosita Canda

Thesis: Investigating Australian Calcined Clays as a Supplementary Cementitious Material

Freddy Santiago Caro Diaz

Thesis: Links with Variable Stiffness and Their Applications in Robotics

Yu Chen

Thesis: Improving Information Requirements Management in Complex Rail Transport Projects

Raymond Quong Yueng Chia

Thesis: Classification of Spinal Cord Injured EMG Data for Locomotion Recovery

Rodrigo Hernan Cuzmar Leiva

Thesis: Predictive Control Strategies of Modular Multilevel Matrix Converter

Giovanni Salvatore D'urso

Thesis: Probabilistic Scheduling for Multi-Robot Systems and Automation Applications

Perna Dhull

Thesis: Modulated Waveform Design for Optimal Microwave Simultaneous Wireless Information and Power Transfer

Zhihong Deng

Thesis: Building Reliable Autonomous Agents: A Causal Perspective

Melissa Mikaela Eklund

Thesis: Design and Operation Optimisation of Community

Microgrids Considering Socio-technical Complexity

Yeman Fan

Thesis: Modelling and Control of Continuum Robots with Variable Stiffness

ZhenCheng Fan

Thesis: Developing Intelligent Sports Analysis System: Enhancing Keypoint Prediction, Object Tracking, and Computational Efficiency in Real-World Scenarios

Kamaladdin Fataliyev

Thesis: Multimodal Deep Learning for Stock Market Prediction

An Feng

Thesis: Atmospheric Water Harvesting with Polymeric Hydrogels

Isabella Francis

Thesis: Pulmonary Surface Tension Effects on the Dynamics of Airflow, Mechanics of Alveolar Surfaces, and Kinematics of Inhaled Particles

Sarvjit Singh Girn

Thesis: Cybersecurity Governance Framework for Board Directors

Maram Hakami

Thesis: Leveraging Digital Platform-based Intermediation to Facilitate Knowledge and Technology Transfer Activities through University-Industry Collaboration: A Design Science Research Approach

Mingfei Han

Thesis: Evolving Video Analysis: From Object Perception to Holistic Understanding

Jiajia Hao

Thesis: Damage Identification of Spatial Structures Based on Machine Learning Techniques

David Hason Rudd

Thesis: Investigate Organisational Member Engagement Through Financial X-ray and Artificial Neural Networks

Amer Mahmoud Hawchar

Thesis: Removing the Battery Recharge/Replacement Burden of Internet-of-Things Wireless Sensor Nodes Using Thermoelectric Energy Harvesting

Siyi Hu

Thesis: Towards a Unified Multi-agent Reinforcement Learning Framework

Zequn Jia

Thesis: Routing and Scheduling in Future Data Center Networks

Abhasha Joshi

Thesis: Machine Learning-Based Crop Mapping and Yield Estimation Using Multi-Temporal Remote Sensing Data

Sami Karali

Thesis: Automatic Detection and Verification system for Arabic Rumor News tweets on Twitter

Yunjiao Lei

Thesis: Learning Knowledge Based Security in Reinforcement Learning

Chenguang Li

Thesis: Concrete-steel composite structures with innovative shear connectors

Yiqiao Li

Thesis: Faithful and Fair Generative Explainers for Graph Neural Networks

Yidong Liao

Thesis: Quantum Neural Networks: Architecture Design and Quantum Training

Ang Liu

Thesis: Precise Indoor Positioning with Sensor Fusion of Ultra-Wideband and Odometer

Baoping Liu

Thesis: A Study on the Detection of Generative Visual Data

Jinliang Liu

Thesis: Low-level Image Generation: Deep Learning for Makeup Transfer and Unified Visual Restoration

Lin Liu

Thesis: System-level and Multi-disciplinary Design Optimization of a Permanent Magnet Synchronous Motor Drive System

Zihe Liu

Thesis: Deep Reinforcement Learning in Non-stationary Environments

Clara Liu Chung Ming

Thesis: The Roles Played by Acetylcholine in Cardiac Regeneration

Yu Lu

Thesis: Zero-Shot Natural Language-Driven Video Analysis and Synthesis

Guangzhi Ma

Thesis: Transfer Learning with Imprecise Observations: Theory and Algorithms

Jian Ma

Thesis: From Sound to Sign: Deep Learning for Audio Style Adaptation and Multimodal Sign Language Analysis

Rongrong Ma

Thesis: Graph Representation Learning for Graph-level Classification and Anomaly Detection

Meenu

Thesis: Novel drug delivery systems for in-vitro cancer treatment

Bahareh Mehdizadeh Miyandehi

Thesis: Assessment of Slag Use in Concrete for Base Mixes in Rigid Road Pavements

Nishikanta Mohanty Mohanty

Thesis: Application of Quantum Machine Learning for Optimization and Data Imbalance Solutions

Lakshmi Nair

Thesis: Subgrade Soil Behaviour under a Three-dimensional Stress State, including Principal Stress Rotation

Isabella Novais Silva

Thesis: Geotechnical Behaviour of Soft Railway Subgrade Under Monotonic and Cyclic Loading with Stabilisation Using Recycled Crushed Glass

- Marlisio Oliveira Cecilio Junior
Thesis: Shear behaviour of saturated infilled rock joints under cyclic loading in the hollow cylinder apparatus
- Casey Onggowarsito
Thesis: A Green Approach to Future Water Harvesting Strategy through Solar Steam Generator System
- Pablo Martin Poblete Durruty
Thesis: Advanced Power Control System For Enhancing Second-Life Battery Energy Storage Systems Integration and Reliability
- Louis Camden Pratt
Thesis: Digital Renaissance Expanding Contemporary Sculpture Through Digital Simulation and Tool Development
- Jiwen Qi
Thesis: Economic Operation of Electric Vehicle Parking Lot Based on Vehicle-to-Grid Function
- Ali Raza
Thesis: Development of Integrated Wireless Power Transfer, Sensing, and Communication Using Compact Reconfigurable RF Structures
- Thomas Paul Roth
Thesis: Adversarial Training Objectives for Generative Attacks on Text Classifiers
- Yashar Salehi
Thesis: Application of Vertical Inclusions as Ground Improvement Techniques in Foundations of Transportation Infrastructure
- Dan Shang
Thesis: Unsupervised Concept Drift Detection in Data Streams
- Rabi Sharma
Thesis: Maritime Surveillance Using Instance Segmentation Techniques
- Jianbin Shen
Thesis: Four Novel Ways Toward Better Factuality of Abstractive Text Summarization
- Tianling Shi
Thesis: Research on islanding detection method and grid-connected stability of DC microgrid based on adaptive frequency disturbance
- Shuquan Su
Thesis: Investigating roles of RNA editing in virus host interaction
- Abbas Tabandeh
Thesis: Planning and Operation of Future Energy Systems Incorporating Green Hydrogen and Fuel Cell Electric Vehicles
- Yue Tan
Thesis: Federated Representation Learning Across Heterogeneous Clients
- Gang Tang
Thesis: Trilinear Form Equivalence Problems: From Algorithm and Complexity to Post-quantum Cryptography.
- Zhiyi Tian
Thesis: Exploring Privacy Vulnerabilities in Deep Learning by Reconstructing Training Samples
- Laura Tomidei
Thesis: A Process Mining Approach for Production Flow Analysis
- Steven Alexander Vasilescu
Thesis: A Microfluidic Approach to Improving Assisted Reproductive Technology
- Jennifer Wakulicz
Thesis: Reduced latent belief spaces for active perception in robotics
- Annika Jasmin Wambsganss
Thesis: Exploring firms' reactions to technology convergence – A longitudinal analysis of convergence developments and firms' technology strategies
- Xiangmeng Wang
Thesis: Towards Causality-centric Recommender System
- Xiaonan Wang
Thesis: Performance of Phase Change Cementitious Composites with Self-heating Capacity
- Yang Wang
Thesis: Data-Efficient Machine Learning on Administrative Healthcare Records
- David Jiawei Wen
Thesis: Neural cell responses to wear debris from spinal instrumentation and devices
- Jiahao Xia
Thesis: Robust and Reliable Facial Landmark Detection under Challenging Conditions
- Han Xu
Thesis: Blockchain-Enabled Multi-stage Incentive Framework for Federated Learning

Haotian Xu

Thesis: Advanced Policy Optimization Algorithms with Flexible Trust Region Constraint

Mengya Xu

Thesis: Filter Based Active Slam in Static and Deformable Environments

Wenbo Xu

Thesis: Effective Few-shot Learning approaches for Image Semantic Segmentation

Peng Yan

Thesis: Towards Explainable Personalisation for Federated Learning

Haoran Yang

Thesis: Graph Contrastive Learning and Its Applications in Recommendation Systems

Feiyang Ye

Thesis: Multi-Task Learning: Effective Weighting Algorithms and Model Parameterization

En Yu

Thesis: Adaptive Learning under Concept Drift for Multiple Data Streams

Guangsheng Zhang

Thesis: A Study of Privacy Attacks and Defences in Deep Learning

Xutong Zhang

Thesis: Physics-guided Machine Learning for Condition Assessment of Building Structures in Operational Environments

Zihan Zhang

Thesis: Beyond Pre-training: Learning for Knowledge Updates in Language Models

Zixu Zhang

Thesis: Improving Efficiency and Security of Sharded Blockchain

Rui Zhao

Thesis: Exploring Pedestrian Behavior through Deep Learning Methods in Smart Cities

Boyuan Zheng

Thesis: Explaining Imitation Learning: Potentials in Preprocessing, Language for Explanations and Frame-wise Importance

Xuhan Zuo

Thesis: Utilizing Blockchain in Privacy Protection and Machine Unlearning

POSTGRADUATE

MASTER OF ANALYTICS (RESEARCH)

Maliha Homaira

Thesis: From Data to Insight: Understanding Students' Metacognition Through Learning Analytics Using Written Reflections and Learning Traces

Meraj Karim Huda

Thesis: An exploration of Airline Facebook content: Image and brand behaviour impacts on customer engagement before and during the COVID-19 crisis

Khanh Van Nguyen

Thesis: Approaches To Developing Customer Risk Profile For Underwriting Using Knowledge Graph And Multilabel Classification

Xiaoxiao Wu

Thesis: Situation Awareness-Based Evaluation Framework for Quality of Machine Learning Explanations

MASTER OF ENGINEERING (RESEARCH)

Parikshit Acharya

Thesis: Smart Sensing Technology for Concrete Infrastructure Sub-surface Condition Assessment

Miriam Sofia Alfonso Sanchez

Thesis: Exploring mitochondrial dynamics, translocation and cytoskeleton remodeling upon T cell activation using advanced microscopy

Yunlong Han

Thesis: Predicting Lithium-Ion Battery Health and Lifespan Using Machine Learning

MASTER OF SCIENCE (RESEARCH) IN COMPUTING SCIENCES

Duc Manh Bui

Thesis: Advanced Machine Learning for Privacy-Preserving Intrusion Detection in IoT Networks

Padraic Gerald Heaton

Thesis: Theorised Best Parent Optimisation: An Approach for Playstyle Creativity via Preference-Driven Evolutionary Content Generation

Thalia Rae Johnson

Thesis: How video games give players the opportunity to explore gender

Nur indah Lestari

Thesis: Optimising Credit Card Fraud Detection through Machine Learning and Deep Learning with Spatial-Temporal Imbalance Handling

Abdul Matin

Thesis: Automating machine learning for human activity recognition

Alexandra Marie Neville

Thesis: Augmented Reality: A Complementary Medium for Traditional Art Practice

Edward Su

Thesis: Better Understanding of Humans for Cooperative AI through Clustering

DIPLOMA IN LANGUAGES

John Angus Murray

FACULTY OF SCIENCE

DOCTOR OF PHILOSOPHY

DOCTOR OF PHILOSOPHY

Sanaa Abdullah M Alzahrani

Thesis: Bimetallic Nanoporous Sponges

Christine Anne Berle-Keys

Thesis: Investigation into the incidence of adverse events associated with the use of Chinese Herbal Medicine (CHM)

Pritam Bordhan

Thesis: Targeting cancer cell-derived small extracellular vesicles (sEVs) to develop nanoparticle-integrated detection systems

India Jade Boyton

Thesis: Developing encapsulin protein nanocages into a modular vaccine platform against Alzheimer's disease

Hannah Jane Brown

Thesis: Multifunctionality of CetZ tubulin-like proteins in halophilic archaea

Iris Simone Cheng

Thesis: Extracellular vesicle cargo: a source of biomarkers for severe malaria in paediatric patients

Ashley Naomi Douglas

Thesis: Can urban greening counterbalance the dynamic impacts of urbanisation?

Alireza Etminaniesfahani

Thesis: Decomposition Methods For Resourced Constrained Project Management Problems With Uncertainty

Billy FitzGerald-Lowry

Thesis: Casting light on diatom silicification in changing oceans

Angus James Gale

Thesis: Creation and Modification of Solid-State Quantum Emitters via Charged Particle Beams

Kiruthika Ganesan

Thesis: Generation of genetic and non-genetic risk factor-based mouse models resembling the sporadic human Alzheimer's disease phenotype

Gemma Madeleine Gillette

Thesis: Exploring the Role of Novel Coral Nursery Infrastructure as Fish Habitat on the Great Barrier Reef

Thomas Donald Walck Goodwin

Thesis: Contributions to Bayesian inference via spectral methods

Teneil Jayne Hanna

Thesis: Fingerprint Detection: What is the Best Approach to Assess the Quality of a Technique?

Qinsi He

Thesis: Effects of conservation practices on agricultural sustainability

Tao Huang

Thesis: Realizing flexible batteries from material to manufacturing process

Zefu Huang

Thesis: New Types of Advanced Material Development for Rechargeable Batteries Beyond Lithium

Piyush Jha

Thesis: Investigating the role of the gut-lung axis in chronic respiratory diseases: chronic obstructive pulmonary disease (COPD) and severe steroid resistant asthma (SSRA)

Giang Hoang Bao Le

Thesis: Development of new therapy to combat tuberculosis induced inflammation

Yue Ma

Thesis: Molecular Investigations of Ovarian Clear Cell Carcinoma - a Treatment Resistant Malignancy

Jacqueline Elise Marshall

Thesis: Tuft Cells Are Potent Modulators of Inflammatory Responses in the Lung

Stefan Miemczyk

Thesis: Investigating Host Innate Immunity in COVID-19

Fateme Mirakhorli

Thesis: Integrated Microfluidic Systems for Algal Research

Julia Eun-Sol Oh

Thesis: An International Study of the Clinical Referral Practices and Behaviours of Chinese Medicine Practitioners: A Quantitative (survey) and Qualitative (focus group) Perspective.

Axel Olander

Thesis: Developing a Methodology to Sample the Volatilome of Marine Benthic Organisms in Situ

Joseph Pera

Thesis: Fish kills in lakes; implications to water quality and ecology

Christine Dawn Roper

Thesis: Informing coral propagation and planting practices for resilient reef restoration at high-value sites on the Great Barrier Reef

Johannes Leonardus Lambertus van Nijnatten

Thesis: Defining COPD and severe (early onset) COPD using a multi-omics approach.

Jinru Xue

Thesis: Mechanistic Estimation of Large-Scale Plant Photosynthetic Assimilation Based on Solar-Induced Chlorophyll Fluorescence for Ecosystem Health and Agricultural Yield Prediction

Kevin Yonathan

Thesis: Unravelling the Impact of Silver Nanoparticles on Microbial Communities and Antimicrobial Resistance Determinants in the Environment: a Metagenomics Study

Binbin Zhang

Thesis: An Investigation into the Clinical Reasoning of Chinese Medicine

POSTGRADUATE

MASTER OF SCIENCE (RESEARCH)

Lisa Marie Albino

Thesis: Ecology of Brush-tailed Phascogales (Phascogale tapoatafa) in an Agricultural Landscape

Callan Cutcliffe

Thesis: Understanding the Role of Embayments and Coves in the Formation of Cyanobacterial Blooms in a Shallow, Polymictic Reservoir

Liang Hong

Thesis: Coating and Doping Modification Strategies for Ni-rich Layered NCM cathode materials

Laura Marie La Motta

Thesis: Lipid based adaptive traits of a subtropical and temperate coral promoting survival in high-latitude reefs

Karin Heidi Kobelentz

Thesis: Financing the transition to a more circular economy – A comparative analysis of Australia and the Netherlands

Disclaimer

This graduation program includes awards conferred from 20 November 2024 until 19 March 2025, for new graduates being included in the 2025 Autumn graduation season. Graduates who are attending the Autumn season, but whose awards were conferred prior to this period should refer to the program relevant to their conferral period.

This information is correct as of 19 March 2025. Changes in circumstances on or after this date may impact on the accuracy or currency of this information. The University takes all due care to ensure that the information contained here is accurate but reserves the right to vary information that is published without notice.

This document is for ceremonial purposes and is not intended to confirm qualifications. For verification of qualifications, please refer to the UTS service information here: <https://web-tools.uts.edu.au/qualifications>.

Graduates are listed according to the Faculty of their highest award. Graduate Certificates, Diplomas, Associate Diplomas and Undergraduate Certificates are not shown unless accompanied by a degree or graduate diploma.
