The Graduation Ceremony

The Graduation Ceremony is a celebration of the success of our graduates in fulfilling the requirements of their awards. Our ceremony observes many traditional elements and rituals representing continuity of generations of universities, but adapted in a way that reflects the culture and values that makes UTS such a special place. The attendance at a graduation ceremony has become a rite of passage for generations of students.

The Academic Procession signals the formal commencement of the UTS Graduation Ceremony. The procession comprises senior leaders, academic and professional staff of the University.

Observing the grand tradition of graduation ceremonies, many participants in the procession wear ceremonial regalia that represent the origins and diversity of their academic qualifications. The senior presiding officers, such as the Chancellor and Vice-Chancellor, wear robes designed specifically for UTS that symbolise their important leadership roles.

Acknowledgement of Country

UTS acknowledges the Gadigal people of the Eora Nation, the Boorooberongal people of the Dharug Nation, the Bidiagal people and the Gamaygal people, upon whose ancestral lands our university stands. We would also like to pay respect to the Elders both past and present, acknowledging them as the traditional custodians of knowledge for these lands.

Belonging – The Graduation Music

In 2019, UTS commissioned the distinguished Australian composer, Nigel Westlake, to compose a new processional and a recessional that reflect the University's vibrancy and values. Both the processional and recessional are contemporary pieces that reflect the energy of the University.

UTS is still young by world standards and we embrace elements that reflect both the continuities of tradition from the evolution of universities and respect for many thousands of years of Indigenous knowledge.

The processional commences with the beautiful and evocative sounds of the Yigi Yigi (Western Yalanji language word for didgeridoo) by David Dahwurr Hudson. This immediately situates the location of the University on the land of First Australians, specifically the land of the Gadigal people of the Eora Nation where the UTS City Campus is located. First Australians have, for

thousands of years, nurtured their own traditions of knowledge acquisition and sharing. The processional piece then transitions to instrument orchestration that reflects the historical origins of our university structure. Finally, the Yigi Yigi can be heard in harmony with other instruments symbolising the coming together of two ancient traditions both rich in their celebration of learning, discovery and passing knowledge to the generations that follow.

Finally the recessional triumphantly marks the conclusion of the ceremony and the commencement of our graduates' transition to a new phase in their lives, taking with them the skills and attributes developed at UTS that will form critical pillars for future success.

The University of Technology Sydney would like to express its sincere appreciation to:

Nigel Westlake – Composer, musician, conductor

David Dahwurr Hudson – Yigi Yigi soloist, musician, artist, entertainer, presenter

Sydney Symphony Orchestra (SSO) conducted by Nigel Westlake

Co-creators with SSO:

Lachlan Carrick
Recording & mixing engineer

Jessica Wells
Recording producer

Chancellor's Message

Congratulations!

Your graduation is one of the most important moments in your life. Finishing a degree or diploma is a major achievement and we do not underestimate the hard work and sacrifices that you have made in reaching that goal. It is also an important occasion for your family and friends who have given their support, love and understanding during your studies.

Graduations are important times for everyone associated with them – both graduates and the wider university. For many, it is the start of careers; for others, part of the career development path. It brings status and rewards, and builds capabilities and new skills. Graduation brings with it both opportunities and obligations; opportunities to enter professional fields and obligations to contribute to the society that has supported you.

The opportunities that you face have never been greater. The workplace is more diverse than it has ever been, and ever increasing international opportunities mean that many of you will live and work in countries other than those in which you were born.

Conversely, the challenges in the workplace have never been greater.

Scrutiny and the expectations of society are already high and continue to grow. The future will depend upon knowledge being used constructively in the best interests of the current and future generations. It is knowledge, ideas and skills that will ensure a better society and living standards for all.

UTS graduates are held in high esteem by employers, not only because of the quality of the education that they have received but also because of its practical nature. Employers recognise, in UTS graduates, key characteristics including adaptability and flexibility in dealing with work and also workplace issues.

I am sure that UTS graduates will be able to deal with those ethical dilemmas that may arise in their workplaces. Make yourselves, your families and your university proud by maintaining the highest professional and ethical standards.

Your relationship with UTS does not end today. In many ways, it is just beginning. Today we welcome you to the UTS alumni community; a powerful and extensive global network of creative and innovative UTS graduates making their mark on the world. I encourage you to utilise the exclusive benefits your membership of this community delivers, and to continue to stay involved with UTS.

On behalf of all of UTS, I congratulate you, and wish you every success in applying the skills and knowledge that you have gained from one of Australia's finest universities.

Best wishes,

Catherine Livingstone AC
Chancellor

Vice-Chancellor's Message

On behalf of the UTS community, congratulations to all of our graduates. Graduating with a degree from university is a significant milestone and one you should be very proud of. I hope you continue your thirst for knowledge, discovery and innovation as you commence or continue your career journey. As a valued member of the global UTS alumni community we look forward to supporting and engaging with you as a leader who will shape the future of our society.

Kind Regards,

Andrew Parfitt
Vice-Chancellor and President

Social Justice

As a public purpose institution, UTS is committed to driving social change within and beyond campus. Our social impact agenda focuses on research, education and practice from across the university to benefit people and communities. We are the first Australian university to formally set its own social impact agenda, through the Social Impact Framework.

The UTS Centre for Social Justice and Inclusion coordinates and implements the Social Impact Framework and maximises the capacity of UTS to deliver public benefit. Through the UTS Social Impact Framework, UTS will:

- Contribute to increased public good, social mobility and equity
- Support the creation of enabling environments for communities to thrive
- Positively influence and impact the public, the individual, and the systemic forces that shape justice

At the same time, the centre is pivotal in creating a culture at UTS that values social justice, impact and inclusion and ensures equal opportunity and access for everyone.

UTS Emblem

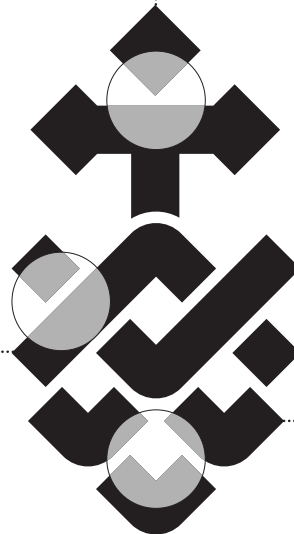

The UTS Emblem is a symbol that represents our history and commitment to technology, innovation and collaboration.

There are three components of the UTS Emblem:

- The anchor from the City of Sydney coat of arms
- The Double Helix inspired by the DNA molecule
- Three waves representing Sydney's maritime location

The top of the Emblem is drawn from the anchor on the City of Sydney coat of arms. It represents a historical tradition of discovery and exploration, and reinforces our close ties with government, commerce and industry.

This section of the Emblem represents a DNA molecule, the basic building block of life itself. For UTS this is strongly symbolic of our innovative, technological and collaborative character. The interlinking sections also represent the flow of ideas and collaboration between faculties, disciplines, students and industry.

The wave element at the base of the Emblem is symbolic of Sydney's maritime location. The three-part wave formation represents equality and strength in unity.

Academic Regalia

Ceremonial Mace and Staff

Originally a weapon of offence, the mace took on a ceremonial function in the sixteenth century. At UTS, it represents a medieval battle tradition, the Chancellor's authority and the good name of the University. The mace was a gift to the inaugural UTS Council by the New South Wales Department of Technical and Further Education to mark the establishment of UTS in 1988. Made of silver and titanium it represents the blend of traditional and modern technology, and its most prominent design feature is a double helix, the code of life.

The staff was gifted to UTS by the UTS Alumni Association in 1994. It is made of silver and Australian jarrah and also symbolises authority.

Academic Dress

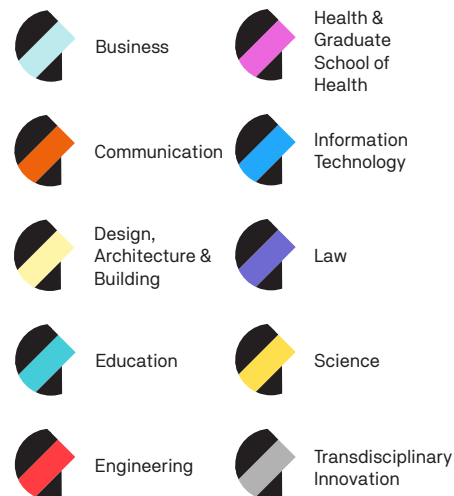

The academic gowns worn today have their origins in the costumes of twelfth century Europe. The trencher (hat) grew out of the pileus worn at Oxford and Cambridge universities around the seventeenth century. The festal gowns worn by the Chancellor, Deputy Chancellor, Pro-Chancellors and Vice-Chancellor are based on traditional British gowns, but contain embroidered Australian wattle (*acacia pycnantha*), Australia's national flower.

Other professional and academic staff in the procession wear the gowns that commensurate with the highest level of award they have earned. Often their gowns are from other universities in Australia or abroad, adding to the variety of each UTS ceremony.

Graduate Dress

UTS graduates wear black gowns in the Cambridge style but their hoods are unique to the university. The number and colour of the bands on the edge of the lining designate each graduate's faculty level of the award. Sashes and inserts are worn by undergraduate, associate diploma, and double degree recipients. All graduates wear a black trencher cap (also referred to as a mortarboard).

UTS Hood Colours

Creative Intelligence and Innovation Sash

Bachelor of Creative Intelligence and Innovation

This sash represents students who have completed a combined degree, which includes the Bachelor of Creative Intelligence and Innovation, and one of the 25 core UTS undergraduate degrees. The colour of the sash corresponds with that of the Faculty of Transdisciplinary Innovation.

Innovation Sash

Diploma in Innovation

This sash represents students who have completed a combined degree, which includes the Diploma in Innovation, and one of the 25 core UTS undergraduate degrees. The colour of the sash corresponds with that of the Faculty of Transdisciplinary Innovation.

Indigenous Sash

Aboriginal

Torres Strait Islander

Our Indigenous graduates wear sashes at graduation to proudly celebrate their identity and ancient cultural heritage alongside their academic achievement. The sashes are based upon the colours of the Aboriginal flag and the Torres Strait Islander flag – both are official flags of Australia.

International Studies Insert

Bachelor of Arts in International Studies

The light grey insert signifies the Bachelor of Arts in International Studies which is part of a double degree. The hood colour reflects the second degree from one of the 25 core UTS undergraduate degrees.

PhD Gown and Bonnet

PhD Gown (left) and Bonnet (right)

The PhD (Doctor of Philosophy) is a University-wide degree that involves an intense period of supervised study and research. The degree of Doctor of Philosophy is awarded to successful candidates who have made a distinct contribution to knowledge, whether by original investigation, review or criticism. Doctoral graduates wear a black bonnet.

Honorary Awards

Honorary Doctors

Fellow of the University

UTS confers honorary awards and titles on people who have contributed to the achievement of the university's vision and objectives, to scholarship or professional practice, or to the advancement of society in Australia or overseas. Following are the three awards which are conferred at a Graduation ceremony:

- Honorary Doctors
- Fellow of the University
- UTS Distinguished Service Award (no regalia)

Academic Documentation

Testamur, Academic Transcript and Australian Higher Education Graduate Statement

TESTAMUR

The UTS Testamur (referred to at some institutions as a 'certificate') is produced under secure conditions with the utmost care to ensure graduates receive a document of presentation quality worthy of framing. It is both an official document of the university and a keepsake.

ACADEMIC TRANSCRIPT

Like the Testamur, the Academic Transcript is also an official document of the university produced under secure conditions. Unlike the Testamur, the Academic Transcript is frequently sought by prospective employers and other higher education institutions as evidence of a graduate's academic achievements while at UTS. It details the name of the degree awarded, the subjects undertaken, the marks and grades earned and the calculated Grade Point Average (GPA). The reverse of the document provides information about reading and interpreting the information detailed on the Academic Transcript.

AUSTRALIAN HIGHER EDUCATION GRADUATION STATEMENT

The Australian Higher Education Graduation Statement (AHEGS) was introduced by the Commonwealth in 2010 to make Australian qualifications recognised and renowned throughout the world.

Like the Academic Transcript, the AHEGS details academic performance, which provides potential employers and other institutions with a greater understanding of the achievements of each graduate. However, unlike the Academic Transcript, the AHEGS also includes many of a graduate's extracurricular achievements, such as scholarships and prizes won, elected offices held (e.g. elected student representative on UTS Council), and participation in leadership programs such as Beyond UTS International Leadership Development (BUILD).

MY EQUALS

UTS provides all graduates with a printed copy of their Testamur at graduation ceremonies and digital copies of all three official academic documents soon after conferral (prior to graduation ceremonies) via My eEquals. Graduates register with My eEquals and, when their documentation becomes available, they can easily and securely share their certified digital copies with prospective employers, universities to which they apply for graduate studies, etc.

For more information about academic documentation visit the UTS website (uts.edu.au) and search for 'student records'. To register with My eEquals, visit myequals.edu.au.

Honorary Awards

Michelene Collopy

Doctor of the University

Over an outstanding career spanning four decades, Ms Michelene Collopy has made significant contributions to business, the financial services and to UTS. She is a financial planning specialist and registered company auditor, with a wealth of experience as a Company Director and Finance Director. Using her insights and expertise, she has been instrumental in establishing UTS as a world leading university of technology through 12 years of voluntary service on the UTS Council.

Emeritus Professor Paul Redmond AM

Doctor of Laws

A leader in corporate law development and education, Emeritus Professor Paul Redmond AM has dedicated his career to shaping the development of Australian corporate law and supporting human rights in Australia and beyond. He wrote the foundational scholarly text in Australian corporate law and continues to support and mentor students in his current role as the Sir Gerard Brennan Professor at UTS. He continues to shape the way law is taught in Australia and exemplifies the ethic of service in professional legal work.

The Honorable Dr Robert Stokes

Doctor of Design

The Honourable Robert Stokes is recognised as a thought leader with a passion for urban planning and sustainable development. He has made an outstanding contribution to the development of the state of New South Wales in his government roles, advocating for progress in urban spaces to better serve the community. Mr Stokes has spearheaded significant changes during his political career and his commitment to sustainable urban growth and social justice will have lasting and beneficial impact on the people of NSW.

Wendy Bryant

Fellow of the University

Ms Wendy Bryant is an experienced technology executive who has worked across the public and private sectors. She has used her extensive leadership experience to champion women in the technology sector. Ms Bryant has been heavily involved with the UTS Faculty of Engineering and Information Technology where she has generously provided her expertise on advisory boards and input into course design. Ms Bryant's contributions and achievements with UTS continue to foster a thriving and more inclusive technology sector.

Johanna Roca Martinez

Fellow of the University

Johanna has been instrumental in shaping the future of design over her outstanding career to date. Ascending quickly to senior positions, she was the Executive Creative Director at award-winning international design and branding agency, For the People. Today she holds a freelance Creative Director position at the NASA Jet Propulsion Laboratory in California. Ms Roca is dedicated to nurturing the next generation of design practitioners and regularly shares her knowledge, insights and experience with UTS students. Her work has significantly contributed to fostering industry-connected education and an inclusive and diverse industry.

Associate Professor Mary Coupland

Distinguished Service Award

Associate Professor Mary Coupland is a longstanding member of the UTS academic staff, with 33 years of dedicated and exceptional service. Her passion to make mathematics accessible and applicable has had a positive impact for high school students, university students, teachers and professionals. Committed to championing mathematics education, Associate Professor Coupland's work over the decades has left a legacy at UTS and across our nation.

Danielle McCartney

Distinguished Service Award

Danielle McCartney has been instrumental in initiating and leading sustainability strategy and initiatives over the last 12 years at UTS. Ms McCartney's contribution and leadership has resulted in the university winning 15 national and international sustainability awards and ranking 14th in the world in the 2023 Times Higher Education Impact Rankings. By embedding sustainability and social justice principles in UTS's ethos, Danielle empowers graduates to be globally responsible citizens with the desire to positively impact their local, national and global communities.

The beginning of a journey of connection and lifelong learning

You've just taken a giant leap from life as a UTS student to a new beginning as a UTS graduate. Today you join a worldwide community of over 280,000 UTS alumni, connected to the thousands of UTS graduates who've come before you, and many more who will graduate in the future.

During your years of learning and discovery at UTS you have achieved educational goals and formed enduring friendships. Your UTS experience, whether it has been on-campus or online, will continue to shape the amazing person and professional that you become. We hope that the foundation you have built through your time at UTS will lead you to a future of lifelong learning.

We encourage you to take advantage of the many benefits of staying connected with UTS and your global alumni community. Whether it's through networking events, mentorship, professional connections or continuing education programs, there are many ways to stay involved and engaged. We look forward to staying in contact, to hearing about your accomplishments and to supporting your professional path.

Countless opportunities await you. As you move forward in life, we encourage you to continue to pursue your dreams, to be passionate about your pursuits, and perhaps above all, to make a positive impact in the world.

You have earned the title of UTS Alumni and we hope that you will wear it proudly. Whatever stage in your career and no matter the distances you travel, you will remain a lifetime member of the UTS community.

Best Wishes,
UTS Advancement

Faculty of Engineering and Information Technology

Doctor of Philosophy

DOCTOR OF PHILOSOPHY

Suleiman Abdulrahman M Abahussein

Thesis: Deep Reinforcement Learning and Privacy Preserving with Differential Privacy

Vijina Abhijith

Thesis: Performance Enhancement of a Switched Reluctance Motor Using Hybrid Excitation Method for Electric Vehicle Applications.

Morteza Afsari

Thesis: Modification of Membranes for Treatment of Challenging Water and Nutrient Recovery Using Membrane Distillation

Suliaman Al-Aiman Suliaman Al Hunaity

Thesis: Dynamic Behaviour of Cold Formed Steel and Timber Composite Flooring Systems

Ahmed Abdulkreem Ahmed Al-Dulaimi

Thesis: 2D and 3D Noise Modelling on Mobile GIS Application Through Machine Learning Based Models

Muhammad Mubashir Alam

Thesis: Non-Isolated Multi-Port DC-DC Converters: Topologies, Control Techniques and Fault-Tolerant Operation

Fuhid Nada B Alanazi

Thesis: Modelling Health Process and System Requirements Engineering for Better E-health Services: Focus on Diabetes in Saudi Arabia

Wafa Matar A Alharbi

Thesis: IBRRB: Intelligent Blockchain-based Reputation Broker for Robot Selection

Maryam Almusallam

Thesis: Assessment of Pre- and Post-adoption Factors of Business Intelligence and Analytics Systems in Saudi SMEs

Shuang Ao

Thesis: Auto-generated Curriculum for Reinforcement Learning

Senura Harin Athuraliya

Thesis: Biological and Geochemical Clogging of Piezometers in Low-lying Acid Sulfate Soils

Umakant Badeti

Thesis: Impact of Urine Diversion to the Downstream Wastewater Treatment Plants

Bradley Beck

Thesis: Improving Performance of EMG-driven Ankle-Foot Orthosis Through Passivation & Reinforcement Learning

Layla Boroon

Thesis: Investigating Addiction to Social Media Use: Influential Factors and Mitigation Strategies

Yuying Chen

Thesis: Smouldering Fuel Processing, Emission Flammability, and Carbon Footprint

Bin Cheng

Thesis: Classical Verification and Enhancement of Near-term Quantum Devices

Zishuo Cheng

Thesis: Differential Privacy in Multi-agent Reinforcement Learning

Hoai Nam Chu

Thesis: Advanced Machine Learning for 6G Networks

Mitchell Craig Cullen

Thesis: Development of a Smart Gas Metal Arc Welding System Using Acoustic Sensing

Abdel-Raheem Tareq Mohammed Darwish

Thesis: Mobile Laser Doppler Vibrometry Motion Tracking and Vibration Compensation for In-field Vehicular Deployments

Jinliang Deng

Thesis: Towards Adaptive, Scalable and Interpretable Spatial-Temporal Forecasting

Jacqueline Nicole Dinklo

Thesis: Operationalisation of Artificial Intelligence: How Organisations are Managing the Artificial Intelligent Technologies that are Deployed within their Organisation

Tri Dung Duong

Thesis: Causality for Interpretable Machine Learning

Nabil Farah

Thesis: Robust Predictive Control of Permanent Magnet Synchronous Machine Drives

Majid Farhangi

Thesis: Single-Stage Grid-Connected Multilevel Converters: Topologies and Control Strategies

Charith Dalindra Jude Fonseka
Weeranarayana Mudalige

Thesis: Selective Recovery of Rare Earth Elements and Valuable Metals from Mining Wastewater by Membrane/Adsorption Hybrid Systems

Wen Qian Gan

Thesis: A Narrative Inquiry of Women International Students in Engineering Programs in Australia

Namuun Ganbat

Thesis: Enhanced Electrokinetic Remediation for the Removal of PFOA from Contaminated Kaolinite Soil

Ramesh Gedela

Thesis: Bioremediation of Soft Subgrade for Enhanced Performance of Rail Infrastructure

Safa' Ahmad Ali Ghannam

Thesis: Predicting Short-term Water Demand for the Greater Sydney Region.

Siming Gong

Thesis: An Advanced Approach to Assessing Flood Risk in Urban Environments

Artur Grigorev

Thesis: Advanced AI Techniques for Comprehensive Traffic Incident Analysis: Enhancing Incident Duration Prediction and Accident Risk Forecasting

Shannan Guan

Thesis: Skeleton-based Human Action Recognition: From 3D Pose Estimation to Action Recognition

Waranga Dilanthi Habaraduwa Peelage

Thesis: Dynamic Characteristics of Jointed Rocks Subjected to Cyclic Loading

Mohammadmehdi Habibagahi

Thesis: Assessment of Residual Load Capacity of ASR Affected Prestressed Concrete Structures

Aisha Muhammad A Hamdi

Thesis: iVFC: A Proactive Methodology for Task Offloading in VFC

A S M Monjurul Hasan

Thesis: Industrial Energy Efficiency: Exploring Synergies with Industry 4.0 Technologies at Operational Level

Xin Hong

Thesis: Equivalence Checking of Quantum Circuits

Seyed Ahmad Hosseinzadeh

Thesis: Assessment of Osmotic Membrane Bioreactor for Simultaneous Hydrogen Production and Wastewater Treatment

Yi Huang

Thesis: Classification Modelling for Encrypted Network Traffic Captured in Air

Yilun Huang

Thesis: Efficient Connectivity Analysis and Path Management in Massive Graphs

Yazan Jaradat

Thesis: Impact of Structural Pounding on Seismic Behaviour of Adjacent Buildings

Alka Rachel John

Thesis: Real-time Mental Workload Detection and Alert System with Brain Computer Interface for Augmenting Human Performance at Work

Dheeraj Karki

Thesis: Numerical and Experimental Investigations on Static Behaviour of Composite Cold-formed Steel and Timber Flooring System

David Alexander Katzmarek

Thesis: Fabrication and Characterisation of Epitaxial Graphene on SiC/Si for High-Frequency Applications

Junghyun Kim

Thesis: Development of Electrically Conductive Membrane Distillation for Zero Liquid Discharge by Mitigating Inorganic Scaling

Lana Kovacevic-Opacic

Thesis: Digital Transformation Through Platformisation

- Cunyi Li
Thesis: Phase Field Fracture Model and Its Application to Additively Manufactured Metallic Materials
- Guangrui Li
Thesis: Generalizable Visual Understanding with Deep Neural Networks
- Yang Li
Thesis: Ontological Knowledge Learning for Relation Extraction
- Yina Li
Thesis: Enhance the Perception in Viewing Business Data
- Zuyu Li
Thesis: Topological Design of Lattice Metamaterials with Unusual Mechanical Properties
- Shuming Liang
Thesis: Decoding the Neighborhood Aggregation Mechanism of GNNs: From Generalization to Interpretive Analysis
- Chi Liu
Thesis: Deep Image Forgery: An Investigation on Forensic and Anti-forensic Techniques
- Wipa Loengbudnark
Thesis: Understanding Human Behavior to Improve Demand-side Energy Management
- Baihe Ma
Thesis: Location Privacy Protection in Vehicular Networks
- Jie Ma
Thesis: Clustered Federated Learning
- Zhehua Mao
Thesis: Three-dimensional Ultrasound Fusion for Transesophageal Echocardiography
- Jasprabhjit Mehami
Thesis: Subsurface Material Estimation Using Hyperspectral Imaging
- Guofeng Mei
Thesis: Robust 3D Point Cloud Registration Based on Deep Learning and Optimization
- Gary Munro Miller
Thesis: On the Beauty of Language Spreadsheet Modelling Paradigm: Expressiveness with Usability
- Mauricio Enrique Morales Soler
Thesis: Methods for Improved Analysis and Implementation of Algorithms for Local Hamiltonians
- Dorsa Morshedi Rad
Thesis: Developing Microfluidic Tools for Intracellular Delivery
- Ayesha Nadeem
Thesis: Gender Bias in AI: Examination of Contributing Factors and Mitigating Strategies
- Amir Hossein Navidpour
Thesis: Photocatalytic Degradation of Perfluorooctanoic Acid in Water by Free and Immobilised ZnO, g-C₃N₄ and Their Composite under Uv and Visible Light Irradiation
- Jacob Stewart Parnell
Thesis: Advancing Training Objectives for Neural Document Summarisation
- Sadia Qureshi
Thesis: Path Establishment in Software Defined Optical Networks
- Payar Radfar
Thesis: A Low-cost Microfluidic Approach for Single Cell Analysis of Rare Cells
- Abida Sadaf
Thesis: On the Use of Network Control Techniques in Pursuit of Influence Spread in Complex Networks
- Muhammad Babar Sajjad
Thesis: Modelling Transition Zones and Optimal Design Adjoining Tunnels and Bridges
- Baoling Shan
Thesis: New Graph Learning Techniques for Networked Knowledge Inference and Protection
- Anees Raja Siddiqui
Thesis: Recycled Rubber Grids for Improved Performance of Ballasted Rail Tracks

Joakim Skarding

Thesis: A Study on Dynamic Graph Neural Networks for Dynamic Link Prediction

Hamza Hasan H Sulimani

Thesis: Optimizing Resource Allocation and Offloading for Long-Term Load Balancing Solutions in Fog Computing

Lijun Sun

Thesis: Multi-agent Coordination Algorithms for Pursuit-evasion

Wensi Tang

Thesis: Trustworthy One-Dimensional Convolutional Neural Network for Time Series Classification

Yanqiu Tian

Thesis: The Effects of Different Sensory Modalities on Human Cognitive Performance of Situational Awareness

Kun Wang

Thesis: Drift Learning for Prediction and Decision-Making

Minghao Wang

Thesis: Utilizing Blockchain for Privacy Preservation in Internet of Things

Xuefei Wang

Thesis: Controllable synthesis of B,N co-doped C from metal-organic frameworks with tunable catalytic performance

Clyde Robert Webster

Thesis: A Parrot-inspired Tripedal Robot for Climbing Sparse Vertical Structures

Yubo Wen

Thesis: Multibeam Antenna Design for Advanced Wireless Communication Systems

Bowen Xing

Thesis: Advanced Multi-Graph Architectures for Natural Language Understanding

Hanyu Xue

Thesis: A Study on Image Privacy Protection in Response to Artificial Intelligence Technology

Chao Yang

Thesis: Deep Learning Methods for Multivariate Time Series Classification

Shuo Yang

Thesis: Generalizable and Robust Learning with Imperfect Data Supervision

Yinghua Yao

Thesis: Deep Generative Models with Human Preferences

Ruiping Yin

Thesis: Enhanced Recommender Systems with Deep Neural Networks

Xingrui Yu

Thesis: Robust Imitation Learning with Weak Demonstrations

Yuanhang Yu

Thesis: GPU-accelerated Approaches for Graph Data Processing

Lefeng Zhang

Thesis: Differential Privacy and Game Theory in Cybersecurity

Ling Zhang

Thesis: Fiber-based Single Aerosol Optical Trapping and Manipulations

Shuai Zhang

Thesis: 3D Reconstruction of Colon Structures and Textures from Colonoscopic Videos

Siqi Zhang

Thesis: The Coevolution of Human and Machine Learning

Xiaofeng Zhang

Thesis: Effects of Dynamic Soil-structure Interaction on Seismic Behaviour of High-rise Buildings

Haiyan Zhao

Thesis: Trustworthy and Efficient Knowledge Sharing across Tasks in Deep Neural Networks

Yuan Zhao

Thesis: Defending Security and Privacy of Image Data from Learning-based Threats

Congcong Zhu

Thesis: Advising Methods and Applications In Multi-agent System

Postgraduate

MASTER OF ENGINEERING (RESEARCH)

Rao Natasha Ali

Thesis: Econometric modelling of determinants of COVID-19 impact in the Australian residential solar market

Lachlan Matthew Neal

Faculty of Health

Doctor of Philosophy

DOCTOR OF PHILOSOPHY

Vesna Trenoska Basile

Thesis: Remote Cognitive-Behaviour Therapy for Generalised Anxiety Disorder

Sarita Bista

Thesis: Long-term Outcomes of a Residential Treatment Program for Adolescents with Problematic Drug and Alcohol Use: Evidence from Longitudinal Modelling Approach Using Linked Data

Rafael Emilio De Feria Cardet

Thesis: Application of surrogate outcomes for reimbursement decision-making in prostate cancer

Gabriele De Rubis

Thesis: Development of Advanced Drug Delivery Systems for Respiratory Diseases

Glenys Dale Frank

Thesis: NEST: Not even a safe territory. The maternity experiences of women seeking asylum, in Australia.

Kim Danielle Graham

Thesis: The use of complexity science to explore clinical reasoning in primary health care: a mixed methods sequential explanatory design using naturopathy as a case study

Iqra Ishaq

Thesis: Toward Valid Network Meta-analysis: Challenges in Clustering Conservative Interventions for Musculoskeletal Conditions

Wei Lee

Thesis: Depression in People with Advanced Life-Limiting Illnesses and Extremely Short Prognoses

Melissa Miao

Thesis: Implementation of Online Communication Training for Adults with Acquired Brain Injury and their Communication Partners: A Complexity-informed Approach

Melissa Anne Morns

Thesis: The Experience of Women Who Self-identify As Perceiving Feelings of Aversion While Breastfeeding

Denny Noor

Thesis: Monitoring of Perceived Load, Fatigue and Recovery within National Football Team Contexts

Karen Dierdre Patterson

Thesis: Ordinary and extraordinary acts of integration: People's perceptions of integrated health care within their everyday lives

Julia Kuiper Pilowsky

Thesis: Pre-existing Mental Health Disorders in Patients Admitted to the Intensive Care Unit: Prevalence, Characteristics and Outcomes

Md Morshadur Rahman

Thesis: Addressing the Healthy Donor Effect While Studying the Impact of Blood Donation on Donors' Long-Term Health Outcomes.

Li Min Rebecca Seah

Thesis: The Role of Trauma-related Shame and Attributions in Posttraumatic Stress Disorder

Shanelle Sorbello

Thesis: The Pathway Research for Eye Care in Stroke (PRECiS) Study Improving Visual Rehabilitation for Stroke Survivors

Eric Lawer Torgbenu

Thesis: Identifying Opportunities to Strengthen Care for People with Cancer-related and Other Forms of Lymphoedema Living in Low- and Middle-Income Countries.

Katie Jane Tunks Leach

Thesis: Exploring the Role and Value of Chaplains in Australian Ambulance Services: A Mixed Methods Study

Wayne Varndell

Thesis: Emergency Nurses' Perceptions and Practices in Assessing and Managing Acute Pain in Critically Ill Adult Patients: A Mixed-methods Study

Ridhima Wadhwa

Thesis: Understanding and Targeting Molecular Mechanisms of Respiratory Diseases

Stephanie Ann White

*Thesis: The Genomic Information For Families of the Terminally Ill (GIFT)
Project: Building Evidence For An Intervention Using Mixed Methods*

Gemechu Kumera Wirtu

Thesis: Antenatal Exercise Using an Innovative Exergame Program.

Postgraduate

MASTER OF PHYSIOTHERAPY (RESEARCH)

Robin Mathew Varghese

Institute for Sustainable Futures

Doctor of Philosophy

Deyvid Wavel Barreto Rosa

*Thesis: Assessing the Benefits of
Green and Blue Infrastructure in
Peri-urban Areas*

Juan Garzon

*Thesis: Transmodern transitions
to buen vivir in early 21st century
Andean seed systems*

Rupert Guy Spencer Legg

*Thesis: A geography of the
disruptive effects of contaminated
sites on residents' mental health:
The regulation of PFAS sites in NSW,
Australia*

Postgraduate

MASTER OF SUSTAINABLE FUTURES (RESEARCH)

Zaheer Allam

*Thesis: A New Frontier for
Green New Deals: Incorporating
Ecosystem Approaches and the
Fourth Industrial Revolution in
Developing Economies*

Disclaimer

This graduation program includes awards conferred from 1 November 2023 until 1 April 2024, for new graduates being included in the 2024 Autumn graduation season. Graduates who are attending the Autumn season, but whose awards were conferred prior to this period should refer to the program relevant to their conferral period.

This information is correct as at 2 April 2024. Changes in circumstances on or after this date may impact on the accuracy or currency of this information. The University takes all due care to ensure that the information contained here is accurate, but reserves the right to vary information that is published without notice.

This document is for ceremonial purposes and is not intended to confirm qualifications. For verification of qualifications, please refer to the UTS service information here:

<https://web-tools.uts.edu.au/qualifications>

Graduates are listed according to the Faculty of their highest award. Graduate Certificates, Diplomas, Associate Diplomas and Undergraduate Certificates are not shown unless accompanied by a degree or graduate diploma.
