The Graduation Ceremony

The Graduation Ceremony is a celebration of the success of our graduates in fulfilling the requirements of their awards. Our ceremony observes many traditional elements and rituals representing continuity of generations of universities, but adapted in a way that reflects the culture and values that makes UTS such a special place. The attendance at a graduation ceremony has become a rite of passage for generations of students.

The Academic Procession signals the formal commencement of the UTS Graduation Ceremony. The procession comprises senior leaders, academic and professional staff of the University.

Observing the grand tradition of graduation ceremonies, many participants in the procession wear ceremonial regalia that represent the origins and diversity of their academic qualifications. The senior presiding officers, such as the Chancellor and Vice-Chancellor, wear robes designed specifically for UTS that symbolise their important leadership roles.

Acknowledgement of Country

UTS acknowledges the Gadigal people of the Eora Nation, the Boorooberongal people of the Dharug Nation, the Bidiagal people and the Gamaygal people, upon whose ancestral lands our university stands. We would also like to pay respect to the Elders both past and present, acknowledging them as the traditional custodians of knowledge for these lands.

Belonging – The Graduation Music

In 2019, UTS commissioned the distinguished Australian composer, Nigel Westlake, to compose a new processional and a recessional that reflect the University's vibrancy and values. Both the processional and recessional are contemporary pieces that reflect the energy of the University.

UTS is still young by world standards and we embrace elements that reflect both the continuities of tradition from the evolution of universities and respect for many thousands of years of Indigenous knowledge.

The processional commences with the beautiful and evocative sounds of the Yigi Yigi (Western Yalanji language word for didgeridoo) by David Dahwurr Hudson. This immediately situates the location of the University on the land of First Australians, specifically the land of the Gadigal people of the Eora Nation where the UTS City Campus is located. First Australians have, for

thousands of years, nurtured their own traditions of knowledge acquisition and sharing. The processional piece then transitions to instrument orchestration that reflects the historical origins of our university structure. Finally, the Yigi Yigi can be heard in harmony with other instruments symbolising the coming together of two ancient traditions both rich in their celebration of learning, discovery and passing knowledge to the generations that follow.

Finally the recessional triumphantly marks the conclusion of the ceremony and the commencement of our graduates' transition to a new phase in their lives, taking with them the skills and attributes developed at UTS that will form critical pillars for future success.

The University of Technology Sydney would like to express its sincere appreciation to:

Nigel Westlake – Composer, musician, conductor

David Dahwurr Hudson – Yigi Yigi soloist, musician, artist, entertainer, presenter

Sydney Symphony Orchestra (SSO) conducted by Nigel Westlake

Chancellor's Message

Congratulations!

Your graduation is a moment of significant achievement, celebration and promise. Your achievement reflects your intellect, curiosity, commitment and hard work. Recognising this is important for you and for your family and friends who have encouraged you and given their support, love and understanding during your studies.

For many of you, graduation will start you on your careers; for others it may represent a milestone in a career already well established. Whatever is next for you, your graduation will open up new opportunities in your career and in your life. These opportunities will be balanced by obligations, including an obligation to contribute to the society that has supported your education.

You are graduating at a time of extraordinary uncertainty and change. Social, political, economic, environmental and technological changes will influence our society, our lives and your careers in ways we don't yet understand fully. Some of these changes will create great opportunities for you as graduates who have developed the knowledge and skills to grasp them. There will also be challenges that will test the intellect, creativity and the habits of learning, leadership and character that you have developed and refined at UTS.

UTS graduates are held in high esteem, not only because of the quality of your education but also because of its practical nature. As UTS graduates, you have attributes that are valuable and rare, and others will recognise this in you.

Your relationship with UTS does not end today. Today we welcome you to the UTS alumni community; an extensive global network of creative and innovative UTS graduates making their mark on the world. I encourage you to stay connected with this alumni community, and to stay involved with UTS.

On behalf of everyone at UTS, I congratulate you and wish you every success in applying the skills and knowledge that you have gained from your time with us.

Best wishes,

Michael Rose AM
Chancellor

Vice-Chancellor's Message

On behalf of the UTS community, congratulations to all of our graduates. Graduating with a degree from university is a significant milestone and one you should be very proud of. I hope you continue your thirst for knowledge, discovery and innovation as you commence or continue your career journey. As a valued member of the global UTS alumni community we look forward to supporting and engaging with you as a leader who will shape the future of our society.

Kind regards,

Andrew Parfitt
Vice-Chancellor and President

Social Justice

As a public purpose institution, UTS is committed to driving social change within and beyond campus. Our social impact agenda focuses on research, education and practice from across the university to benefit people and communities. We are the first Australian university to formally set its own social impact agenda, through the Social Impact Framework.

The UTS Centre for Social Justice and Inclusion coordinates and implements the Social Impact Framework and maximises the capacity of UTS to deliver public benefit. Through the UTS Social Impact Framework, UTS will:

- Contribute to increased public good, social mobility and equity
- Support the creation of enabling environments for communities to thrive
- Positively influence and impact the public, the individual, and the systemic forces that shape justice

At the same time, the centre is pivotal in creating a culture at UTS that values social justice, impact and inclusion and ensures equal opportunity and access for everyone.

UTS Emblem

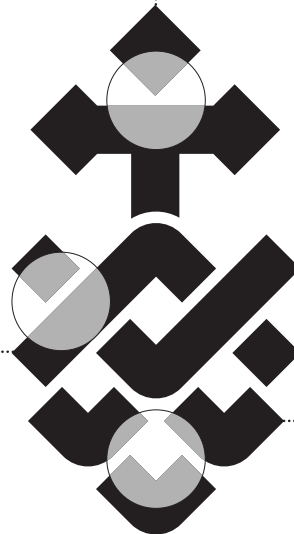

The UTS Emblem is a symbol that represents our history and commitment to technology, innovation and collaboration.

There are three components of the UTS Emblem:

- The anchor from the City of Sydney coat of arms
- The Double Helix inspired by the DNA molecule
- Three waves representing Sydney's maritime location

The top of the Emblem is drawn from the anchor on the City of Sydney coat of arms. It represents a historical tradition of discovery and exploration, and reinforces our close ties with government, commerce and industry.

This section of the Emblem represents a DNA molecule, the basic building block of life itself. For UTS this is strongly symbolic of our innovative, technological and collaborative character. The interlinking sections also represent the flow of ideas and collaboration between faculties, disciplines, students and industry.

The wave element at the base of the Emblem is symbolic of Sydney's maritime location. The three-part wave formation represents equality and strength in unity.

Academic Regalia

Ceremonial Mace and Staff

Originally a weapon of offence, the mace took on a ceremonial function in the sixteenth century. At UTS, it represents a medieval battle tradition, the Chancellor's authority and the good name of the University. The mace was a gift to the inaugural UTS Council by the New South Wales Department of Technical and Further Education to mark the establishment of UTS in 1988. Made of silver and titanium it represents the blend of traditional and modern technology, and its most prominent design feature is a double helix, the code of life.

The staff was gifted to UTS by the UTS Alumni Association in 1994. It is made of silver and Australian jarrah and also symbolises authority.

Academic Dress

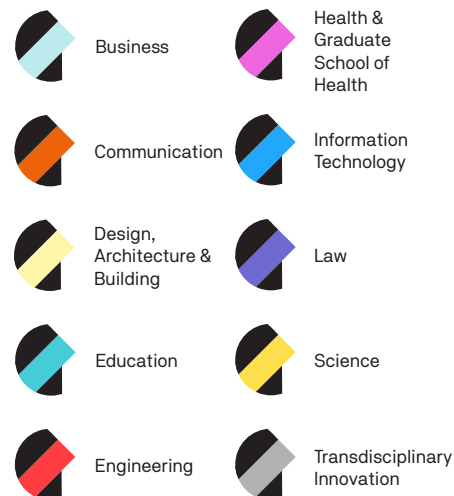

The academic gowns worn today have their origins in the costumes of twelfth century Europe. The trencher (hat) grew out of the pileus worn at Oxford and Cambridge universities around the seventeenth century. The festal gowns worn by the Chancellor, Deputy Chancellor, Pro-Chancellors and Vice-Chancellor are based on traditional British gowns, but contain embroidered Australian wattle (*acacia pycnantha*), Australia's national flower.

Other professional and academic staff in the procession wear the gowns that commensurate with the highest level of award they have earned. Often their gowns are from other universities in Australia or abroad, adding to the variety of each UTS ceremony.

Graduate Dress

UTS graduates wear black gowns in the Cambridge style but their hoods are unique to the university. The number and colour of the bands on the edge of the lining designate each graduate's faculty level of the award. Sashes and inserts are worn by undergraduate, associate diploma, and double degree recipients. All graduates wear a black trencher cap (also referred to as a mortarboard).

UTS Hood Colours

Creative Intelligence and Innovation Sash

Bachelor of Creative Intelligence and Innovation

This sash represents students who have completed a combined degree, which includes the Bachelor of Creative Intelligence and Innovation, and one of the 25 core UTS undergraduate degrees. The colour of the sash corresponds with that of the Faculty of Transdisciplinary Innovation.

Innovation Sash

Diploma in Innovation

This sash represents students who have completed a combined degree, which includes the Diploma in Innovation, and one of the 25 core UTS undergraduate degrees. The colour of the sash corresponds with that of the Faculty of Transdisciplinary Innovation.

Indigenous Sash

Aboriginal

Torres Strait Islander

Our Indigenous graduates wear sashes at graduation to proudly celebrate their identity and ancient cultural heritage alongside their academic achievement. The sashes are based upon the colours of the Aboriginal flag and the Torres Strait Islander flag – both are official flags of Australia.

International Studies Insert

Bachelor of Arts in International Studies

The light grey insert signifies the Bachelor of Arts in International Studies which is part of a double degree. The hood colour reflects the second degree from one of the 25 core UTS undergraduate degrees.

PhD Gown and Bonnet

PhD Gown (left) and Bonnet (right)

The PhD (Doctor of Philosophy) is a University-wide degree that involves an intense period of supervised study and research. The degree of Doctor of Philosophy is awarded to successful candidates who have made a distinct contribution to knowledge, whether by original investigation, review or criticism. Doctoral graduates wear a black bonnet.

Honorary Awards

Honorary Doctors

Fellow of the University

UTS confers honorary awards and titles on people who have contributed to the achievement of the university's vision and objectives, to scholarship or professional practice, or to the advancement of society in Australia or overseas. Following are the three awards which are conferred at a Graduation ceremony:

- Honorary Doctors
- Fellow of the University
- UTS Distinguished Service Award (no regalia)

Academic Documentation

Testamur, Academic Transcript and Australian Higher Education Graduate Statement

TESTAMUR

The UTS Testamur (referred to at some institutions as a 'certificate') is produced under secure conditions with the utmost care to ensure graduates receive a document of presentation quality worthy of framing. It is both an official document of the university and a keepsake.

ACADEMIC TRANSCRIPT

Like the Testamur, the Academic Transcript is also an official document of the university produced under secure conditions. Unlike the Testamur, the Academic Transcript is frequently sought by prospective employers and other higher education institutions as evidence of a graduate's academic achievements while at UTS. It details the name of the degree awarded, the subjects undertaken, the marks and grades earned and the calculated Grade Point Average (GPA). The reverse of the document provides information about reading and interpreting the information detailed on the Academic Transcript.

AUSTRALIAN HIGHER EDUCATION GRADUATION STATEMENT

The Australian Higher Education Graduation Statement (AHEGS) was introduced by the Commonwealth in 2010 to make Australian qualifications recognised and renowned throughout the world.

Like the Academic Transcript, the AHEGS details academic performance, which provides potential employers and other institutions with a greater understanding of the achievements of each graduate. However, unlike the Academic Transcript, the AHEGS also includes many of a graduate's extracurricular achievements, such as scholarships and prizes won, elected offices held (e.g. elected student representative on UTS Council), and participation in leadership programs such as Beyond UTS International Leadership Development (BUILD).

MY EQUALS

UTS provides all graduates with a printed copy of their Testamur at graduation ceremonies and digital copies of all three official academic documents soon after conferral (prior to graduation ceremonies) via My eEquals. Graduates register with My eEquals and, when their documentation becomes available, they can easily and securely share their certified digital copies with prospective employers, universities to which they apply for graduate studies, etc.

For more information about academic documentation visit the UTS website (uts.edu.au) and search for 'student records'. To register with My eEquals, visit myequals.edu.au.

Honorary Awards

Bronwyn Penrith

Doctor of Laws

Aunty Bronwyn Penrith is a trailblazing Wiradjuri woman who has shaped the landscape of Aboriginal rights, community justice and women's empowerment in Australia. She helped to establish an enduring model for Aboriginal community-led institutions and culturally grounded service protocols. As a founding member and the long-time Chair of the Mudgin-Gal Aboriginal Women's Centre in Redfern, she connects Aboriginal women and children to vital programs and ensures their voices are central to justice and reform. Ms Penrith is a widely respected mentor whose cultural advice and guidance supports emerging Aboriginal leaders and transforms learning outcomes for students in the UTS Faculty of Law.

Judith Neilson AM

Doctor of Letters

Judith Neilson AM is a philanthropist and visionary who has made an outstanding contribution to the arts, humanities and social justice. She is the founder of the White Rabbit Gallery, home to one of the world's most significant private collections of contemporary Chinese art, and the patron and principal donor for Anti-Slavery Australia, a research and advocacy institute at UTS. In 2018, she launched the Judith Neilson Foundation, a philanthropic initiative that addresses social, economic and resource inequities around the world. Collectively, her efforts are transforming outcomes for disadvantaged and marginalised people and communities across the globe.

Joanne Gray AM

Doctor of Health Sciences

Emeritus Professor Joanne Gray AM is an academic and midwifery leader who has made an outstanding contribution to UTS and the midwifery and allied health professions. In her former roles as Pro Vice-Chancellor (Education) at UTS and President of the Australian College of Midwives and currently as Deputy Chair for the Australian Nursing and Midwifery Accreditation Council, she has spearheaded a range of initiatives that have directly impacted the quality and integrity of teaching and learning at UTS and ensured a steady supply of qualified, competent and capable allied health graduates. Major achievements include her leadership in the development and implementation of the Bachelor of Midwifery at UTS and guiding the UTS Graduate School of Health through the complexities of remote learning during the COVID-19 pandemic.

Heriberto Bustamante

Fellow of the University

Dr Heriberto Bustamante is a leading water quality and treatment researcher, contributed to transforming the former Principal Scientist (Treatment) for Sydney Water and a longtime research collaborator in the Faculty of Engineering and Information Technology. His significant contributions to the Australian and international water industries have shaped best practice in environmental engineering. Many of Dr Bustamante's research innovations demonstrated customer and regulatory value, while his tireless commitment to collaboration at UTS has transformed the university's research and teaching outcomes. Collectively, his work has enhanced the rigour and value of research on emerging water industry needs and enhancing UTS research and teaching.

Shaun O'Mara

Distinguished Service Award

Mr Shaun O'Mara is certified protection professional and the Head of Security and Emergency Management at UTS. For over 17 years, he has been responsible for the safety of UTS staff, students and visitors. His major responsibilities and achievements include overseeing the university's security and emergency management operations, implementing a digital CCTV system and 24/7 CCTV control room, establishing electronic lockdown and threat-level controls, and, during the COVID-19 pandemic, ensuring the university's compliance with NSW Health requirements. He works tirelessly with and for the UTS community, including through regular dialogue with student groups impacted by global political challenges. His passion, dedication and influential leadership make UTS a safer place for all.

The beginning of a journey of connection and lifelong learning

You've just taken a giant leap from life as a UTS student to a new beginning as a UTS graduate. Today you join a worldwide community of over 291,000 UTS alumni, connected to the thousands of UTS graduates who've come before you, and many more who will graduate in the future.

During your years of learning and discovery at UTS you have achieved educational goals and formed enduring friendships. Your UTS experience, whether it has been on-campus or online, will continue to shape the amazing person and professional that you become. We hope that the foundation you have built through your time at UTS will lead you to a future of lifelong learning.

We encourage you to take advantage of the many benefits of staying connected with UTS and your global alumni community. Whether it's through networking events, mentorship, professional connections or continuing education programs, there are many ways to stay involved and engaged. We look forward to staying in contact, to hearing about your accomplishments and to supporting your professional path.

Countless opportunities await you. As you move forward in life, we encourage you to continue to pursue your dreams, to be passionate about your pursuits, and perhaps above all, to make a positive impact in the world.

You have earned the title of UTS Alumni and we hope that you will wear it proudly. Whatever stage in your career and no matter the distances you travel, you will remain a lifetime member of the UTS community.

Best wishes,

FACULTY OF SCIENCE

DOCTOR OF PHILOSOPHY

DOCTOR OF PHILOSOPHY

Fahmida Bano Abdi

Thesis: Investigating Predictive Biomarkers for Hypertension-gated Alzheimer's disease using Astrocytes from Animal and Cellular models.

Farjana Akter

Thesis: Identification and Characterization of High Value Products from Algae

Christopher James Allen

Thesis: Defence mechanisms of Vibrio cholerae against predation by protists and the escape from the food vacuole

Christopher Augood

Thesis: Elucidating the effects of steroid hormones and their receptors on mitochondrial function

Hao Chen

Thesis: Spatial Transcriptomics in COPD: Insights into Smoking-Induced Pathophysiological Changes

Liberty Evangeline Conyers

Thesis: The Discovery of New Treatments for Non-Tuberculous Mycobacteria

Ciara Jean Devlin

Thesis: The evaluation of forensic intelligence to better understand the criminal environment for Australian document fraud

Madysen Ashleigh Elbourne

Thesis: The Metabolomic Investigation of Urinary Biomarkers for Progestogenic and Dopaminergic Substance Misuse in Racehorses

Angela Gail Gormley

Thesis: Australian bushfire danger in changing climate: integration of remote sensing, land use, climate and field measurements.

Tianpeng Gou

Thesis: Non-Commutative Kirillov Method and Coadjoint Orbits

Yunpeng Guan

Thesis: Comprehensive Multidimensional Analysis of Bacterial Antibiotic Resistance: Integrative Detection and Insights

Luke Martin Hall

Thesis: Transmission, Diagnosis and Molecular Biology of Dientamoeba fragilis.

Karl Joseph Hegarty

Thesis: Investigating the mechanisms underlying cachexia in pulmonary diseases

Mariana Destila Bayu Intan

Thesis: Investigation of Harmful Algal Blooms (HABs) in Indonesia and Sydney Harbour, an urbanised estuary in temperate NSW, Australia

Curtis Patrick Irvine

Thesis: Luminescence Properties of Excitons and Defects in β -Ga₂O₃

Angelica Katsifis

Thesis: Investigating the interaction of Cigarette Smoke and Alpha-1

Antitrypsin Deficiency in a mouse model of Chronic Obstructive Pulmonary Disease

Sidaswar Krishnan

Thesis: Understanding Bacterial Evolution and Adaptation in Natural Microbial Environments

Ming Lu

Thesis: Laser Refrigeration of High-Doped Yb³⁺ Nanocrystal

Somayeh Rafieezadeh

Thesis: Synthesis of Oxide-based Nanoplates and Nanosheets for Photocatalysis and Optoelectronics

Reggie Marc Ridlen

Thesis: A model of traumatic and nontraumatic spinal cord injury and the cellular response over multiple age demographics

Ritika

Thesis: Controlled Growth and Quantum Emitter Integration in Hexagonal Boron Nitride

Qing Shen

Thesis: On the complexity of epimorphism problems for finitely generated groups.

Vinaya Devidas Shinde

Thesis: The Multifaceted Role of Tubulin Superfamily Proteins in Cell Shape and Division in Haloferax volcanii

Jason Neville Stanley

Thesis: Intelligent Tutoring System (ITS) for Mathematics using Computational Engines

Paige Kaitlin Summers

Thesis: Factors Affecting the Stability of Gold Nanoparticles

Samaneh Toukhanbeigli

Thesis: Understanding the role of fibrotic extracellular matrix on the proliferation of lung cancer cells

Jessica Lee Watson

Thesis: The Identification of Missing Persons in Australia Using Emerging Forensic Genomics Techniques

Sitong Wu

Thesis: Light field modulation and orthogonal illumination strategies for volumetric imaging

Ziwei Wu

Thesis: UCNP-based Sandwich Immunoassay for Protein Detection

Keyu Xiang

Thesis: Probabilistic analysis of agricultural drought impacts on yield loss in the New South Wales wheat belt

Karin Yamamura

Thesis: Blue Quantum Emitters in hBN: Activation Dynamics and Photonic Properties

Shijin Yao

Thesis: Climate Change Impacts on Sugarcane Production and Adaptive Management Strategies in New South Wales
