The Graduation Ceremony

The Graduation Ceremony is a celebration of the success of our graduates in fulfilling the requirements of their awards. Our ceremony observes many traditional elements and rituals representing continuity of generations of universities, but adapted in a way that reflects the culture and values that makes UTS such a special place. The attendance at a graduation ceremony has become a rite of passage for generations of students.

The Academic Procession signals the formal commencement of the UTS Graduation Ceremony. The procession comprises senior leaders, academic and professional staff of the University. Observing the grand tradition of graduation ceremonies, many participants in the procession wear ceremonial regalia that represent the origins and diversity of their academic qualifications. The senior presiding officers, such as the Chancellor and Vice-Chancellor, wear robes designed specifically for UTS that symbolise their important leadership roles.

The Graduation Processional Music

Belonging

In 2019, UTS commissioned the distinguished Australian composer, Nigel Westlake, to compose a new processional and a recessional that reflect the University's vibrancy and values. Both the processional and recessional are contemporary pieces that reflect the energy of the University.

UTS is still young by world standards and we embrace elements that reflect both the continuities of tradition from the evolution of universities and respect for many thousands of years of Indigenous knowledge.

The processional commences with the beautiful and evocative sounds of the Yigi Yigi (Western Yalanji language word for didgeridoo) by David Dahwurr Hudson. This immediately situates the location of the University on the land of First Australians, specifically the land of the Gadigal people of the Eora Nation where the UTS City Campus

is located. First Australians have, for thousands of years, nurtured their own traditions of knowledge acquisition and sharing. The processional piece then transitions to instrument orchestration that reflects the historical origins of our university structure. Finally, the Yigi Yigi can be heard in harmony with other instruments symbolising the coming together of two ancient traditions both rich in their celebration of learning, discovery and passing knowledge to the generations that follow.

Finally the recessional triumphantly marks the conclusion of the ceremony and the commencement of our graduates' transition to a new phase in their lives, taking with them the skills and attributes developed at UTS that will form critical pillars for future success.

The University of Technology Sydney would like to express its sincere appreciation to:

Nigel Westlake – Composer, musician, conductor

David Dahwurr Hudson – Yigi Yigi soloist, musician, artist, entertainer, presenter

Sydney Symphony Orchestra (SSO) conducted by Nigel Westlake

Co-creators with SSO:

Lachlan Carrick
Recording & mixing engineer

Jessica Wells
Recording producer

Chancellor's Message

Congratulations!

Your graduation is one of the most important moments in your life. Finishing a degree or diploma is a major achievement and we do not underestimate the hard work and sacrifices that you have made in reaching that goal. It is also an important occasion for your family and friends who have given their support, love and understanding during your studies.

Graduations are important times for everyone associated with them – both graduates and the wider university. For many it is the start of careers; for others, part of the career development path. It brings status and rewards, and builds capabilities and new skills. Graduation brings with it both opportunities and obligations; opportunities to enter professional fields and obligations to contribute to the society that has supported you.

The opportunities that you face have never been greater. The workplace is more diversified than it has ever been, and ever increasing international opportunities mean that many of you will live and work in countries other than those in which you were born. Conversely, the challenges in the workplace have never been greater.

Scrutiny and the expectations of society are already high and continue to grow. The future will depend upon knowledge being used constructively in the best interests of the current and future generations. It is knowledge, ideas and skills which will ensure a better society and living standards for all.

UTS graduates are held in high esteem by employers, not only because of the quality of the education that they have received but also because of its practical nature. Employers recognise, in UTS graduates, key characteristics including adaptability and flexibility in dealing with work and also workplace issues.

It is a great challenge for graduates today to achieve a balance between the commercial imperatives required by their employers, and the professional pride that is essential if the integrity and true worth of their work is to be maintained. I am sure that UTS graduates will be able to deal with those ethical dilemmas that may arise in their workplaces. Make yourselves, your families and your university proud by maintaining the highest professional and ethical standards.

Your relationship with UTS does not end today. In many ways, it is just beginning. Today we welcome you to the UTS alumni community; a powerful and extensive global network of creative and innovative UTS graduates making their mark on the world. I encourage you to utilise the exclusive benefits your membership of this community delivers, and to continue to stay involved with UTS.

On behalf of all of UTS, I congratulate you, and wish you every success in applying the skills and knowledge that you have gained from one of Australia's finest universities.

Best wishes,

Catherine Livingstone AO
Chancellor

Vice-Chancellor's Message

On behalf of UTS, I'd like to offer my heartfelt congratulations to all our graduates. Today marks a significant milestone in your university career. Congratulations on all you've achieved – you make us the vibrant community we are. I'd also like to welcome you to the UTS alumni family. We look forward to supporting and engaging with you as you continue to shape our society's future.

Best wishes,

Attila Brungs
Vice-Chancellor and President

Social Justice

As a public purpose institution, UTS is committed to driving social change within and beyond campus. Our social impact agenda focuses on research, education and practice from across the university to benefit people and communities. We are the first Australian university to formally set its own social impact agenda, through the Social Impact Framework.

The UTS Centre for Social Justice and Inclusion coordinates and implements the Social Impact Framework and maximises the capacity of UTS to deliver public benefit. Through the UTS Social Impact Framework, UTS will:

- Contribute to increased public good, social mobility and equity
- Support the creation of enabling environments for communities to thrive
- Positively influence and impact the public, the individual, and the systemic forces that shape justice

At the same time, the centre is pivotal in creating a culture at UTS that values social justice, impact and inclusion and ensures equal opportunity and access for everyone.

UTS Emblem

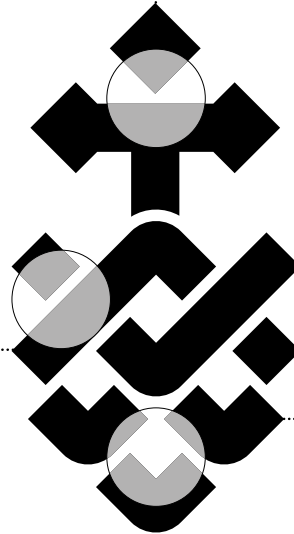

The UTS Emblem is a symbol that represents our history and commitment to technology, innovation and collaboration.

There are three components of the UTS Emblem:

- The anchor from the City of Sydney coat of arms
- The Double Helix inspired by the DNA molecule
- Three waves representing Sydney's maritime location

The top of the Emblem is drawn from the anchor on the City of Sydney coat of arms. It represents a historical tradition of discovery and exploration, and reinforces our close ties with government, commerce and industry.

This section of the Emblem represents a DNA molecule, the basic building block of life itself. For UTS this is strongly symbolic of our innovative, technological and collaborative character. The interlinking sections also represent the flow of ideas and collaboration between faculties, disciplines, students and industry.

The wave element at the base of the Emblem is symbolic of Sydney's maritime location. The three-part wave formation represents equality and strength in unity.

Academic Regalia

Ceremonial Mace and Staff

Originally a weapon of offence, the mace took on a ceremonial function in the sixteenth century. At UTS, it represents a medieval battle tradition, the Chancellor's authority and the good name of the University. The mace was a gift to the inaugural UTS Council by the New South Wales Department of Technical and Further Education to mark the establishment of UTS in 1988. Made of silver and titanium it represents the blend of traditional and modern technology, and its most prominent design feature is a double helix, the code of life.

The staff was gifted to UTS by the UTS Alumni Association in 1994. It is made of silver and Australian jarrah and also symbolises authority.

Academic Dress

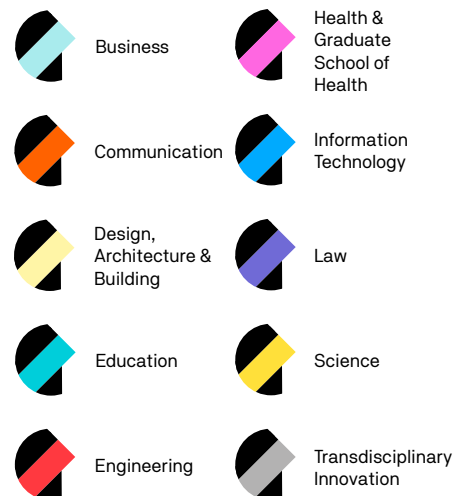

The academic gowns worn today have their origins in the costumes of twelfth century Europe. The trencher (hat) grew out of the pileus worn at Oxford and Cambridge universities around the seventeenth century. The festal gowns worn by the Chancellor, Deputy Chancellor, Pro-Chancellors and Vice-Chancellor are based on traditional British gowns, but contain embroidered Australian wattle (*acacia pycnantha*), Australia's national flower.

Other professional and academic staff in the procession wear the gowns that commensurate with the highest level of award they have earned. Often their gowns are from other universities in Australia or abroad, adding to the variety of each UTS ceremony.

Graduate Dress

UTS graduates wear black gowns in the Cambridge style but their hoods are unique to the university. The number and colour of the bands on the edge of the lining designate each graduate's faculty level of the award. Sashes and inserts are worn by undergraduate, associate diploma, and double degree recipients. All graduates wear a black trencher cap (also referred to as a mortarboard).

UTS Hood Colours

Creative Intelligence and Innovation Sash

Bachelor of Creative Intelligence and Innovation

This sash represents students who have completed a combined degree, which includes the Bachelor of Creative Intelligence and Innovation, and one of the 25 core UTS undergraduate degrees. The colour of the sash corresponds with that of the Faculty of Transdisciplinary Innovation.

Innovation Sash

Diploma in Innovation

This sash represents students who have completed a combined degree, which includes the Diploma in Innovation, and one of the 25 core UTS undergraduate degrees. The colour of the sash corresponds with that of the Faculty of Transdisciplinary Innovation.

Indigenous Sash

Aboriginal

Torres Strait Islander

Our Indigenous graduates wear sashes at graduation to proudly celebrate their identity and ancient cultural heritage alongside their academic achievement. The sashes are based upon the colours of the Aboriginal flag and the Torres Strait Islander flag – both are official flags of Australia.

International Studies Insert

Bachelor of Arts in International Studies

The light grey insert signifies the Bachelor of Arts in International Studies which is part of a double degree. The hood colour reflects the second degree from one of the 25 core UTS undergraduate degrees.

PhD Gown and Bonnet

PhD Gown (left) and Bonnet (right)

The PhD (Doctor of Philosophy) is a University-wide degree that involves an intense period of supervised study and research. The degree of Doctor of Philosophy is awarded to successful candidates who have made a distinct contribution to knowledge, whether by original investigation, review or criticism. Doctoral graduates wear a black bonnet.

Honorary Awards

Honorary Doctors

Fellow of the University

UTS confers honorary awards and titles on people who have contributed to the achievement of the university's vision and objectives, to scholarship or professional practice, or to the advancement of society in Australia or overseas. Following are the three awards which are conferred at a Graduation ceremony:

- Honorary Doctors
- Fellow of the University
- UTS Distinguished Service Award (no regalia)

Academic Documentation

Testamur, Academic Transcript and Australian Higher Education Graduate Statement

TESTAMUR

The UTS Testamur (referred to at some institutions as a 'certificate') is produced under secure conditions with the utmost care to ensure graduates receive a document of presentation quality worthy of framing. It is both an official document of the university and a keepsake.

ACADEMIC TRANSCRIPT

Like the Testamur, the Academic Transcript is also an official document of the university produced under secure conditions. Unlike the Testamur, the Academic Transcript is frequently sought by prospective employers and other higher education institutions as evidence of a graduate's academic achievements while at UTS. It details the name of the degree awarded, the subjects undertaken, the marks and grades earned and the calculated Grade Point Average (GPA). The reverse of the document provides information about reading and interpreting the information detailed on the Academic Transcript.

AUSTRALIAN HIGHER EDUCATION GRADUATION STATEMENT

The Australian Higher Education Graduation Statement (AHEGS) was introduced by the Commonwealth in 2010 to make Australian qualifications recognised and renowned throughout the world.

Like the Academic Transcript, the AHEGS details academic performance, which provides potential employers and other institutions with a greater understanding of the achievements of each graduate. However, unlike the Academic Transcript, the AHEGS also includes many of a graduate's extracurricular achievements, such as scholarships and prizes won, elected offices held (e.g. elected student representative on UTS Council), and participation in leadership programs such as Beyond UTS International Leadership Development (BUILD).

MY EQUALS

UTS provides all graduates with a printed copy of their Testamur at graduation ceremonies and digital copies of all three official academic documents soon after conferral (prior to graduation ceremonies) via My eEquals. Graduates register with My eEquals and, when their documentation becomes available, they can easily and securely share their certified digital copies with prospective employers, universities to which they apply for graduate studies, etc.

For more information about academic documentation visit the UTS website (uts.edu.au) and search for 'student records'. To register with My eEquals, visit myequals.edu.au.

Honorary Awards

Anne Dwyer

Doctor of the University

Ms Anne Dwyer was UTS' Deputy Vice-Chancellor and Vice-President (Corporate Services) for ten years, Pro Vice-Chancellor (Organisational Support) for five years, and Director of the Information Technology Division for five years. During her twenty years of leadership and service at UTS, she oversaw numerous portfolios including human resources, information technology, student administration, marketing and communication, governance support and legal services.

Prior to joining UTS in 1999, Ms Dwyer was the National Management Information System Manager for Ansett Air Freight, and Director of Information Technology for Arthur Andersen's Australian and New Zealand operations.

Ms Dwyer has been an active member and contributor to numerous committees, advisory groups and working parties. These include the Vice-Chancellor's Management Group, Audit and Risk Committee of Council, a board member of Higher Education Systems, a treasurer for the Council of Australian University Directors of IT. She has also led many other Advisory Committees and major project Steering Committees.

Ms Dwyer holds a Bachelor of Business from Charles Sturt University. She is a Non-Executive Director for UTS Insearch and a Member of the Australian Institute of Company Directors.

Tony McAvoy SC

Doctor of Laws

Mr Tony McAvoy SC is a Wirldi man and Australia's first Indigenous Senior Counsel. He was appointed Senior Counsel in 2015, after demonstrating outstanding skill as an advocate and adviser in the administration of justice.

Throughout his career Mr McAvoy SC has held many positions concerning Indigenous affairs and land rights. These include a legal career at the Aboriginal and Torres Strait Islanders Corporation for Legal Services, manager of Heritage and Natural Resources at the NSW Department of Aboriginal Affairs and the registrar of the Aboriginal Land Rights Act. He is

currently Co-Chair of the Indigenous Legal Issues Committee of the Law Council of Australia.

In 2016 and 2017, Mr McAvoy SC was Co-Senior Counsel assisting the Royal Commission into the Protection and Detention of Children in the Northern Territory. He is a formal mentor for many young Aboriginal lawyers and law students. He also acts informally as a mentor to younger practitioners, giving advice and assistance on career and personal matters.

Mr McAvoy SC holds a Bachelor of Laws from the Queensland University of Technology.

Sherri Fields

Fellow of the University

Ms Sherri Fields is the Principal Manager, Universities and Research at Transport for NSW (TfNSW).

She established TfNSW's first dedicated Research Unit, developing its research operating and engagement model. This Unit launched the Research Hub, to foster collaboration and information sharing with the higher education sector, industry and researchers.

Ms Fields represents TfNSW on the Waratah Research Network Government Forum, enhancing cross-government and university sector research collaboration and optimising state funding opportunities.

She is an Industry Advisory Board member for both the UTS Faculty of Engineering and Information Technology, and the Transdisciplinary School. She is also a board member at the University of Sydney Business School's Institute of Transport and Logistics Studies.

Ms Fields holds a Bachelor of Social Science (Honours) in Economics and Urban Geography from the University of New South Wales.

Katie Payten

Fellow of the University

Ms Katie Payten is a Senior Information Technology Executive with over 25 years' experience in the private and public sectors with IBM, Lend Lease and MLC and ASIC. She is currently the Head of Digital - Cyber Security and Technology Risk at Woolworths Group, working closely with Woolies X.

She has led information technology and cyber security strategies, and delivered complex business transformation projects across banking and finance, construction and government. She was a member of the IBM Diversity Council and has run charity initiatives to increase technology experiences in primary schools. She is active in promoting the advancement of women in technology and mentoring future leaders.

Ms Payten is a Graduate of the Australian Institute of Company Directors (GAICD), a member of the UTS Engineering and IT Faculty's Industry Advisory Board since 2002, and a member of the Artificial Intelligence and Ethics Committee for the Australian Computer Society. She is also a Non-Executive Director of AniMark, providing corporate governance and technology risk oversight. She holds a Masters of Commerce (Finance and Organisational Behaviour) from the University of New South Wales, and a Bachelor of Information Technology (co-operative scholarship) from UTS.

Andrew Penfold AM

Fellow of the University

Mr Andrew Penfold AM is the Executive Director of the Australian Indigenous Education Foundation (AIEF), which provides scholarship funding for Indigenous students to complete Year 12 or tertiary studies, with career support to help them make a successful transition into their chosen fields.

A former finance lawyer and investment banker with 20 years' experience working in leading international firms, Mr Penfold left the business world in 2004.

He spent five years working on a full-time, voluntary basis for a range of non-profit and charitable organisations, before establishing AIEF in 2008.

Mr Penfold sits on the National Apology Foundation for Indigenous Australians (NAFIA) Board and in 2014 he was appointed a Member of the Order of Australia for significant service to the Indigenous community.

In 2013 he received the inaugural NSW Human Rights Award, was named an inaugural member of the Prime Minister's Indigenous Advisory Council, and received an Order of Merit from the Australian Institute of Company Directors. He also received the UTS Community Alumni Award 2013 and the UTS Chancellor's Award for Excellence 2013. Mr Penfold holds a Bachelor of Laws (Honours) from UTS.

Scott Wharton

Fellow of the University

Mr Scott Wharton is Commonwealth Bank's Group Executive, Program Delivery and is accountable for the design and delivery of critical programs for the bank. This includes CBA's Prudential Inquiry work, the bank's cost and simplification targets and CBA India. Mr Wharton is also the accountable executive for x15 Ventures.

Mr Wharton has 20 years' experience with a broad knowledge of technology, operations, risk and finance. He joined CBA from Citigroup in New York where he was Managing Director and Global Head of Enterprise Supply Chain, and before that Citigroup's Hong Kong-based Regional Head of Productivity & Corporate Services.

Mr Wharton is Adjunct Professor (Industry) at the University of Technology Sydney (UTS) and also currently the Chair of the UTS Business School's Advisory Board, a board member of Supply Nation (the Australian supplier diversity council) and a board member of the Australia India Chamber of Commerce (NSW). He is an Ambassador of the Australian Indigenous Foundation (AIEF) and a Fellow of the Chartered Institute of Procurement and Supply. Mr Wharton holds a Bachelor of Science from the University of Sydney, a Bachelor of Laws from UTS, an Executive MBA from INSEAD and an Executive MBA from Tsinghua University in Beijing.

Beverley Bosman

Distinguished Service Award

Ms Beverley Bosman joined UTS in 1985 and has since held a range of management roles in the Human Resources Unit (HRU). She is currently part of the senior leadership team at UTS, holding the position of Assistant Director of Human Resources. Ms Bosman has also held the positions of Deputy Director HRU and Assistant Director Strategy and Workforce Planning.

Ms Bosman provides both strategic and operational support to the University's executive, managers and staff across the full range of HR activities, including HR strategy, management information and workforce planning. She has been integral to the development, review

and implementation of the University's academic promotion and performance management policies and practices over the last three decades.

As Assistant Director, she supports the HR Director in all areas of HR leadership and partnering across UTS, as well as planning and monitoring the quality and effectiveness of the Unit's programs and services.

Ms Bosman holds a Bachelor of Arts (Honours) from Monash University and a Master of Business Administration from the New South Wales Institute of Technology, the preceding institution to UTS.

Professor Jane Hall

Distinguished Service Award

Professor Jane Hall founded the Centre for Health Economics Research and Evaluation (CHERE) in 1990, making it one of the longest established health economics groups in the world. She led its development as Director until 2012, stepping aside to pursue her research.

Her research achievements are evidenced by the award of over \$23m in competitive research funding, and over 140 published books, book chapters and peer reviewed articles.

She is a Fellow of the Academy of Social Sciences (and has just completed her three year term as President); and a Fellow of the Australian Academy of Health and Medical Sciences.

Professor Hall has worked across many areas of health economics including measuring quality of life, investigating consumer preferences, evaluating new health technologies, and funding reform. She has been a member of numerous policy committees and and Ministerial and government advisory bodies. She is currently a member of the Independent Hospital Pricing Authority.

She holds a Bachelor of Arts (Economics) from Macquarie University and a Doctor of Philosophy from the University of Sydney.

Research Awards

Distinguished Professor Jie Lu

Chancellor's Medal for Research Excellence 2019

Distinguished Professor Jie Lu is an Institute of Electrical and Electronics Engineers (IEEE) Fellow, International Fuzzy Systems Association (IFSA) Fellow and Australian Research Council (ARC) Laureate Fellow. She is an internationally renowned scientist in the areas of computational intelligence, specifically in fuzzy transfer learning, concept drift, decision support systems, and recommender systems. She is the Director of the Centre for Artificial Intelligence (CAI) at UTS, which has over 200 staff and students working on over 50 research projects, and is the Associate Dean

(Research Excellence) in the Faculty of Engineering and Information Technology, UTS.

She has published six research books and over 450 papers in Artificial Intelligence, IEEE Transactions on Fuzzy Systems, IEEE Transactions on Neural Networks & Learning Systems, Decision Support Systems and other refereed journals and conference proceedings. She has won nine ARC Discovery projects and led 15 industry projects. She has supervised 37 PhD students to graduation in the Faculty of Engineering and Information Technology.

Associate Professor Alison Beavis

UTS Medal for Excellence in Teaching and Research 2019

Associate Professor Alison Beavis is the Deputy Dean in the Faculty of Transdisciplinary Innovation (FTDi), with a portfolio covering learning and teaching, research and engagement activities.

Alison's primary research interest is in the area of analytical chemistry with a focus on the analysis of forensic traces and how this information is interpreted.

She has extensive experience in the analysis of explosives and illicit drugs using various analytical techniques such as GC-MS, UHPLC, ICP-MS and advanced MS. Alison leads the gunshot residue analysis group in the Centre for Forensic Science and contributes extensively in the forensic intelligence space.

Alumni Awards

Professor Maria Kavallaris AM

Bachelor of Applied Science (Biomedical), 1989

UTS Chancellor's Award
for Excellence 2019

UTS Alumni Award for
Excellence 2019 –
Faculty of Science

“Early on, a lot of people still saw me as a laboratory technician, rather than someone who’d finished a PhD. In the end, I realised I just had to prove to myself that I was capable.”

Professor Kavallaris is an expert in cancer nanomedicine who investigates new delivery methods for anti-cancer treatments, including drugs that directly target tumour cells while sparing healthy ones. As a cancer survivor, Maria has personal experience of unwanted side effects that treatments can have, and she has been working on improving medication over the last 35 years. While her work has attracted an incredible \$45 million in funding, her proudest achievement is co-founding the Australian Centre for NanoMedicine in 2011. Since its inception, the centre's interdisciplinary team has grown to include more than 130 researchers including chemists, engineers, scientists, oncologists and clinicians, and has changed the way we look at cancer treatments.

Annette Bennett

Master of Midwifery (Research), 2015

UTS Alumni Award for Excellence 2019 – Faculty of Health

Midwife and nurse, Annette Bennett, has been supporting and empowering midwives in developing countries for over 20 years. As the founding Dean of the Hamlin College of Midwives, she established Ethiopia's first fully accredited, direct-entry Bachelor of Midwifery course. Annette has provided hands-on training and ongoing support to students, including scholarships for young women in rural areas. The college continues to turn out highly skilled midwives, some of whom have gone on to complete master's degrees or work as mentors and academics, and others who have transformed healthcare for mothers and newborns in their hometowns.

“Early on in my time in Ethiopia, I met a young graduate at a remote health centre. She was the only midwife there, and she was burnt out, depressed, and knew her skills were inadequate. She said to me, ‘I didn’t even complete a birth on my own before I graduated.’ That was a game-changer for me. It solidified in my mind that I have a duty of care to my graduates and the women in their care.”

Brooke Boney

Bachelor of Communication (Journalism), 2014

UTS Indigenous Australian Alumni Award 2019

When proud Gamilaroi/Gomeroi woman Brooke Boney took up a role with Channel Nine's Today show, she became the first Indigenous Australian on commercial breakfast television. Even with the immense pressure of a high-profile job, Brooke has embraced the chance to speak to a mass audience, even if that audience is vastly different to those who tune in to Triple J, NITV, SBS and the ABC, where she previously held roles as a news presenter and political correspondent. As a spokesperson for the GO Foundation, which creates opportunities for Indigenous youth through education, Brooke encourages others to follow her lead. “Once Indigenous kids get through post-secondary education, we actually do better,” she says. “But we need to be able to imagine it.”

“I focus on the people who’ve helped me along the way. If you get caught up thinking about how many people don’t want you to succeed or are standing in your way, you fail to see that there are so many who’ll give you a chance or are barracking for you.”

Anntonette Dailey

Bachelor of Engineering (Civil and Environmental), 2008, Diploma in Professional Engineering Practice, 2008

UTS Young Alumni Award 2019

Anntonette Dailey has what she considers to be one of the best jobs in the world: Executive Director of Operations and Communications at the Australian Space Agency. While Anntonette has had a passion for space from a young age, her previous roles have been more aligned with her environmental engineering background and included a range of roles from running a wild dog abatement program to assisting with the Cyclone Yasi recovery effort. Now in her dream job, Anntonette and her colleagues have big plans to grow the local space industry. She is very proud that her agency's leadership team is 50 per cent female and hopes to see more women join her in the space sector.

“Because maths and science are no longer compulsory all the way through school, kids don’t get those skills early enough. My personal goal is to get mums and dads talking about STEM careers around the dinner table.”

Sarah Dale

Bachelor of Laws, 2011

UTS Alumni Award for Excellence 2019 – Faculty of Law

Sarah Dale describes helping 20 unaccompanied teenage asylum seekers on Christmas Island in 2014 as the biggest achievement of her career. Sarah's organisation, Refugee Advice and Casework Service (RACS), took the case to the United Nations — a bold move by the then 27-year-old, who'd been admitted as a lawyer just two years earlier. But Sarah was no stranger to tough cases, having spent her graduate years representing juvenile offenders. Her determination eventually paid off for the teens on Christmas Island – they were released into the community to start the process of applying for protection in Australia and realising their hopes for a better future.

“I love that the law is such an integral part of people’s lives: it’s a protection mechanism, there to make sure we all have access to what we’re entitled to.”

Dr Ashod Donikian

*PhD Engineering, 2010, Graduate Certificate in Research Commercialisation, 2008,
Bachelor of Engineering (Electrical), 2003*

UTS Alumni Award for Excellence 2019 – Faculty of Engineering and Information Technology

Ashod Donikian's PhD research involved inventing a location tracking system that would not only work indoors, but could also be used to find firefighters in burning buildings and save lives. Ashod decided that the best sensor was a smartphone. Using machine-learning algorithms, he created a technology that harnesses a device's inbuilt accelerometers and gyroscopes to provide a 3D-navigation tool. It provides location and motion mapping without the need for Wi-Fi, Bluetooth or GPS. Today, Ashod is based in Silicon Valley and his company, Navisens, licenses the technology to app developers who require location tracking for maps, ride-sharing services or delivering goods.

“I think people think about things too much. If I thought about everything I'd have to do once I moved here to Silicon Valley – hire engineers, raise money, incorporate a company and find my first customers – then I never would have gotten started.”

Brendan Lonergan

Master of Business in Marketing, 2006

UTS Community Alumni Award 2019

When Brendan Lonergan took the reins at Beehive Industries, a 'business with purpose', things were dire: the social enterprise was bleeding cash and the accountants told him the organisation, which supports the disadvantaged and vulnerable, would be lucky to survive more than a year. That was five years ago. Today, annual turnover is up 360 per cent. Brendan attributes the turnaround to a lot of phone calls and a lot of negotiation, but he remains humble about his contribution to the organisation's success, and he's not done yet. With partners like Telstra on board, he hopes to expand the organisation's reach and alleviate social isolation with more accessible programs for their clients.

“I say to people, ‘If you can help someone and you've got the ability, why aren't you doing it?’”

Yiying Lu

Bachelor of Design (Visual Communication), 2008

UTS Alumni Award for Excellence 2019 – Faculty of Design, Architecture and Building

She's the creative genius behind the dumpling emoji and Twitter's infamous Fail Whale, but there's much more to Yiying Lu's story. Raised in Shanghai, Yiying came to Australia to study design and is now working with tech startups in Silicon Valley. An 'artpreneur', she's on a mission to bridge cultural divides, from art to tech and East to West. From logos to wall stickers, her quirky creations speak to people all over the world. Between her branding work and exhibitions, Yiying also gives public addresses and runs online classes, teaching creatives how to design for a global audience.

“I create for communication’s sake. It’s about understanding what the audience wants and what the client wants. I’m a vessel, helping these two things connect.”

Annabelle Sheehan

Bachelor of Communication (Film Production and Film Studies), 1981

UTS Alumni Award for Excellence 2019 – Faculty of Arts and Social Sciences

A film buff from an early age, Annabelle Sheehan was raised on whatever gems free-to-air TV had to offer in the 1970s – mostly relics from Hollywood's golden age. “I used to say a misspent youth is the best way you can prepare for a film career,” she laughs. After graduating from UTS, Annabelle went into postproduction, which eventually led to roles as a Hollywood talent agent and CEO of the South Australian Film Commission. Annabelle was most recently the CEO of the New Zealand Film Commission, where she was determined to showcase more diversity on the big screen – her goal was to boost gender equality and give a platform to more Māori stories.

“UTS taught me to look at the industry from a big, broad perspective. It was strong on analysing social structures, feminism and communications theory – things I still think about today.”

Pandora Shelley

Bachelor of Business (Management Consulting and Marketing), 2014

UTS Alumni Award for Excellence 2019 – UTS Business School

In just eight years, Pandora Shelley went from being the office manager at start-up hub Fishburners, to CEO. In that time, she helped the not-for-profit foster the growth of more than 2,000 tech businesses, creating more than 2,500 jobs and generating over \$110 million in revenue. The organisation, which runs co-working spaces and events for entrepreneurs in Sydney, Brisbane and Shanghai, recorded unprecedented growth during her tenure. Following her success, Pandora moved to New York and she says she's not quite finished with the world of start-ups yet.

“Work for a start-up. You’ll get skills you won’t pick up anywhere else, like being innovative, adaptable, coming up with solutions and moving fast.”

Jim White

Master of Education (Adult Education), 1996

UTS International Alumni Award 2019

HR executive and social advocate, Jim White took the opportunity to further his education and study at UTS after accepting a role in Australia with Blockbuster. After attending his first lecture, he was quizzed by the Dean: “Why are you here? I don’t mean to offend you, but we don’t get many American students here.” Jim replied, “That’s exactly why I’m here.” At UTS, he found “an amazing education program, particularly in terms of diversity and inclusion”, something that wasn’t on offer at other institutions. Today he’s the Senior Vice President of Human Resources at Paramount Pictures and represents the Business Leaders Task Force, a group that works across sectors to come up with effective housing solutions for people struggling with extreme poverty and homelessness in LA.

“I tell people, ‘Only do the things you love.’ If that’s the only thing you look for, you’ll always be happy in your job, your life and everything else.”

Chancellor's Award and List

One of the most important missions of universities is the creation and dissemination of knowledge, through research and publication. UTS endeavours to foster a climate conducive to research of the highest order. To this end, the Chancellor's Award has been established to be given to the person who submits the outstanding PhD thesis each year. This award was established by the late Emeritus Professor Peter Johnson, the University's Foundation Chancellor. Those placed on the Chancellor's List are recognised for their achievement.

2019 Chancellor's Award Joint Winners

Dr Jonathan Jones

Faculty of Arts and Social Sciences

Murrumbidgee: Following in the Footsteps of our Ancestors

Dr Alicia Brooke Mitchell

Faculty of Science

The Impact of Detection of Respiratory Viruses on at Risk Patient Populations

2019 Chancellor's List

Dr Aleksei Chernulich

UTS Business School

Essays on Experimental and Behavioural Economics and Finance

Dr Rachelle Louise Cutler

Graduate School of Health

Economic Impact of Medication Non-Adherence

Dr Christopher Gerard Dunstan

Institute for Sustainable Futures

In the Balance: Electricity, Sustainability and Least Cost Competition

Dr Carolyn Jean Hayes

Faculty of Health

The beginning of a journey of connection and lifelong learning

You've just taken a giant leap from life as a UTS student to your new beginning as a UTS graduate. Today you join a worldwide community of over 235,000 UTS alumni, connected to the thousands of UTS graduates who've come before you, and the many more who will graduate in the future.

During your years of learning and discovery at UTS you've achieved educational goals, formed enduring friendships and established valuable professional networks. Your UTS experience, whether it has been on-campus or online, will continue to shape the amazing person and professional that you become. We hope that the foundation you have built through your time at UTS will lead you on to a future of lifelong learning. Your time here, in so many ways, has been transformative.

We hope that you will carry UTS values with you as you engage deeply with the world around you. We are confident that you will shape our world for the better. Simply put, we believe in you.

Vast opportunities await you. As you leave your graduation ceremony, we hope you transition into the next chapter of your life feeling empowered to grow, explore and contribute to your local and international communities. You are becoming tomorrow's leaders, innovators and inspired global citizens.

At UTS, we would like to continue to engage with you, hear about your accomplishments and be a part of your life.

You have earned the title of UTS Alumnus and we hope that you will wear it proudly. Whatever stage in your career and no matter the distances you travel, you remain a lifetime member of UTS.

You are forever UTS.

Celia Hurley

Honorary Award

DOCTOR OF THE UNIVERSITY (HONORIS CAUSA)

Anne Dwyer
BBus(CSU), MAICD

ENGINEERING

Doctor of Philosophy

DOCTOR OF PHILOSOPHY

Peter Abdo
Thesis: Enhancing Thermal Comfort in a Room Using Natural Ventilation, Phase Change Materials and Green Wall Biofilters

Mohammad Mahmoud Jamil Abuhilaleh
Thesis: Power Management and Control Strategies in Hybrid AC/DC Microgrids

Mehdi Aghayarzadeh
Thesis: Continuum-Based Numerical Simulation Of Static and High-Strain Dynamic Pile Load Testing Adopting Advanced Soil Models

Firas Qais Mohammed Saleh Al-Doghman
Thesis: Consensus-based Data Management Within Fog Computing for the Internet of Things

Mohammad Raja Ismail Al-Soeidat
Thesis: Solar Power Generation Capability and Three-Port Converters for PV-Battery Powered Applications

Muneer Mohammad Awwad Al-Zu'bi
Thesis: Mathematical and Stochastic Modelling of Molecular Communication Systems for Advanced Drug Delivery Applications

Ahmed Y Taha Al-Zubaydi
Thesis: Design, Modelling And Experimental Evaluation Of Energy Recovery Indirect Evaporative Cooling System

Hamzah Mohammad Salem Alqudah
Thesis: Modelling, Regulating And Controlling Cardiovascular Responses By Using Wearable Sensors

Janindu Sithumini Arukgoda
Thesis: Vector Distance Transform Maps for Autonomous Mobile Robot Navigation

Md Atiquzzaman
Thesis: Improving Reliability of Hydrological Flow Estimation Using Hydroinformatics Approach

Ye Aung
Thesis: Development of Mixed Hardening Hyper-Viscoplastic Constitutive Models for Soils Incorporating Creep & Fabric Effects

Alpha Osman Bah
Thesis: Metasurface Enhanced Ultra-Wideband Multifunctional Antenna Arrays and Fabry-Perot Antennas

Fang Bai
Thesis: Two Novel Techniques for Graph Optimization – Cycle Based Formulation and Change of Optimal Values

Bella Maria Basaglia
Thesis: Dynamic Behaviour of Long-Span Timber Ribbed-Deck Floors

Shubhekshya Basnet
Thesis: Spectrum Sharing and Coexistence in Future Wireless Networks

Rodrigo Augusto Bellezoni
Thesis: Water-Energy-Food Nexus in Sugarcane Ethanol Production in the State of Goiás, Brazil: A Regional Input-output Analysis

Bahareh Berenjforoush Azar
Thesis: Energy-Water-Food Security Challenge for Middle-east and North Africa (Mena)

Lili Bykerk
Thesis: Tactile Based Active Perception Of Structural Members In Truss Structures

Duc Luong Cao
Thesis: Chemical Heat Storage For Saving Exhaust Gas Energy In Internal Combustion Engines

Shulin Chen
Thesis: Reconfigurable Resonant and Leaky-Wave Antennas For Future Wireless Systems

Wenhui Chen
Thesis: Application of Heart Rate Variability (HRV) in Congestive Heart Failure (CHF) Detection and Quantification

Qingqing Cheng

Thesis: Secure and Efficient Dynamic Spectrum Access Solutions for Future Wireless Networks

Ping Chu

Thesis: Resource Optimization for Communication and Radar Sensing in Vehicular Networks

Julien Collart

Thesis: Leveraging Gait for People Perception

Pengfei Cui

Thesis: Wireless Off-body Channel Analysis and Sparse Modeling

Tran Hiep Dinh

Thesis: Summit Navigator For Local Maxima Extraction With Surface Inspection Applications

Pema Dorji

Thesis: Potential Application of Membrane Capacitive Deionisation for Bromide Removal in Seawater Desalination

Peibo Duan

Thesis: Modeling, Analysis and Application of Big Traffic Data for Intelligent Transportation Systems

Jeremy Paul Every

Thesis: Design Optimisation of Hybrid Photovoltaic and Energy Storage Systems through Smart Grid Technologies to Maximise Economic Benefit

Jie Gao

Thesis: Isogeometric Topology Optimization for Auxetic Metamaterials and Structures

Jonas Garcia Rincon

Thesis: Evaluating High-Resolution Site Characterisation Tools and Multiphase Modelling to Predict LNAPL Distribution and Mobility.

Sahand Ghavidel Jirsaraie

Thesis: Hybrid Power Plant Bidding Strategy for Electricity Market Participation

Balaka Ghosh

Thesis: Enhanced Analysis of Load Transfer Mechanism and Deformation Estimation for Ground Improvement Using Concrete Injected Columns

Noman Haider

Thesis: Dynamic Spectrum Sharing and Coexistence With Full-Duplex Device-To-Device Communications In 5G Networks

Hayder Abbas Hasan

Thesis: Adverse Effects Of Expansive Soils On Road Infrastructure And Evaluation Of Chemical Remediation Techniques

Hasti Hayati

Thesis: Locomotion dynamics of agile canines

Sheikh Imamul Hossain

Thesis: Unravelling the Biophysical Mechanism of Lung Surfactant Monolayer Exposed to Gold Nanoparticles Using Molecular Dynamics Simulations

Seyedehmarzieh Hosseini

Thesis: Tremor Suppression in the Human Hand and Forearm

Mingye Ju

Thesis: Imaging-Model-Based Visibility Recovery for Single Hazy Images

Mile Katic

Thesis: Operationalising Ambidexterity through Better Management Practices: The Case of High-Variety, Low-Volume Manufacturing

Ammara Anjum Khan

Thesis: Optimized Communication in 5G-Driven Vehicular Ad-Hoc Networks (VANETs)

Mohd Atiqueuzzaman Khan

Thesis: Optimization and Performance Improvement of Anaerobic Membrane Bioreactor (Anmbr) For Volatile Fatty Acid and Biohydrogen Production

Shakil Ahamed Khan

Thesis: Advanced Control Strategies for Multilevel Power Converters in Hybrid Microgrid Applications

Richardo Khonasty

Thesis: Human Pose Estimation During Physical Human-Robot Collaboration

Anh Tuyen Le

Thesis: Analog Least Mean Square Loop for Self-interference Cancellation in In-Band Full-Duplex Radios

Jiantao Li

Thesis: Development of an Indirect Bridge Health Monitoring Approach Using Moving Sensor

Zhiguo Li

Thesis: Key Techniques for Traffic Information Acquisition Sensor Networks

Li Yang Liu

Thesis: Towards Observable Urban Visual SLAM

Yuyue Luo

Thesis: Signal Processing for Joint Communication and Radar Sensing Techniques in Autonomous Vehicular Networks

Bo Ma

Thesis: Advanced Design and Optimization Techniques for Electrical Machines

Sudha Mahalingam

Thesis: Review of Independent Regulation in Downstream Hydrocarbon Sector in India

Mahlagha Mahdavi Aghdam

Thesis: An Improved Finite Control Set Model Predictive Control for Power Converters in Distributed Generations/Microgrids

Imran Makhdoom

Thesis: Defense Against Integrity and Privacy Attacks in The Internet of Things

Kristy April Mamaril

Thesis: An Institutional Perspective on the Energy, Water and Food Nexus in Australia

Anushree Mistry

Thesis: Energy Efficiency as a Means to Redress the Energy Security Challenge in India: An Assessment

Wenwei Mo

Thesis: Gearshift Analysis for an Electric Vehicle with a Novel Synchronizer Mechanism

Yijiang Nan

Thesis: Generalized Continuous Wave Synthetic Aperture Radar

MOHAMMAD REZA NOSOUHI

Thesis: Location Privacy Protection in Social Networks

Ngoc Thang Pham

Thesis: Experimental Study On The Small Strain Shear Modulus Of Unsaturated Soils

Aiswarya Pradeepkumar

Thesis: Carrier Transport and Electrical Conduction in Alloy-mediated Graphene on Silicon

Md Lushanur Rahman

Thesis: Perceptive Mobile Network Based on Joint Communication and Radio Sensing

Amin Rajabi

Thesis: Analysis of Residential Load Data and Its Applications for Smart Grids

Yogesh Kumar Ramu

Thesis: Influence of Cement Composition and Curing Regimes on the Susceptibility of Heat-cured Cementitious Systems to Delayed Ettringite Formation.

Jiawei Ren

Thesis: Immobilization of Nanoscale Zero-valent Iron (NZVI) onto Electrospun Nanofiber Membrane for Groundwater Remediation

Pshtiwan Nasruldeen Shakor

Thesis: Investigation of Cementitious Materials and Fibre Reinforced Mortar in 3D Printing

Ansu Man Singh

Thesis: On Data-driven Modelling and Terminal Sliding Mode Control of Dynamic Systems with Applications

Jingwei Song

Thesis: 3d Non-rigid Slam in Minimally Invasive Surgery

Antonio Cristo Suarez Rodriguez

Thesis: Research on Radio Environment Maps for Mobility Management in 5G Networks

Haihan Sun

Thesis: Key Technologies for Advanced Cellular Base Station Antennas

Shengxiong Sun

Thesis: Research on Intelligent Suppression for Torsional Vibration of Electric Vehicle Drivetrain

Marie Joshua Tapas

Thesis: Role of Supplementary Cementitious Materials in Mitigating Alkali-silica Reaction

Peter Shaker Tawadros

Thesis: Powertrain Electrification for Jerk Reduction and Continuous Torque Delivery

Vu Hien Phuong To

Thesis: Understanding Problems of High Polymer Demand in Sludge Dewatering for Better Sludge Management

Chenxi Tong

Thesis: Particle Breakage of Granular Soils: Evolution Laws and Constitutive Modelling

Van Huy Tran

Thesis: Osmotic Membrane Bioreactor Using Outer Selective Hollow Fibre Membrane

Vinh Phuc Tran

Thesis: Theories and Applications of Non-Contact Sleep Monitoring using Microwave Doppler Radar

Abbas Vahedian

Thesis: Behaviour Of Bond Mechanism In Fibre Reinforced Polymer (FRP) Composites Externally Bonded To Timber

Garima Vats

Thesis: A Nexus Approach to Energy, Water, and Food Security Policy Making In India

Federico Volpin

Thesis: Novel Membrane-based Processes for Nutrients, Energy and Water Recovery from Source Separated Human Urine

Shangbo Wang

Thesis: Spatio-Temporal Traffic Flow Estimation And Optimum Control In Sensor-Equipped Road Networks

Jonathan Kyle Woolfrey

Thesis: Control of Manipulators on Moving Platforms Under Disturbance

Bentuo Xu

Thesis: Photocatalysis of aqueous perfluorooctanoic acid by TiO₂ and Ga₂O₃ assisted with peroxymonosulfate under UV and visible light irradiation

Jinxu Xu

Thesis: Active and Passive Multi-Functional Filtering Circuits Based on Collaborative Techniques

Haitao Yang

Thesis: Control of Motor Drives and Gearshift for a Dual Motor-based Multi-speed Transmission

Junnan Yang

Thesis: Stochastic Geometry Based Modeling And Performance Analysis of Ultra-Dense Cellular Networks

Minwei Yao

Thesis: Membrane Fabrication and Modification for the Treatment of Wastewater Using Membrane Distillation

Yuanyao Ye

Thesis: Development of a Novel Microbial Fuel Cell for Nutrient Recovery from Synthetic Municipal Wastewater

Navid Yeganeh

Thesis: Assessing Impacts of Soil Constitutive Behavior and Water Pressure on Seismic Performance of Buildings on Shallow Foundations

Hairong Yu

Thesis: Development of Monitoring, Modelling and Control Systems for Human Physiological Assessment With Wearable Devices.

Zheng Yu Yu

Thesis: Development and Optimisation of Wireless Indoor Localisation for the IoT Solutions

Guopeng Zhang

Thesis: Sequential Labeling with Structural SVM Under Non-Decomposable Loss Functions

Hao Zhang

Thesis: Low-Complexity Digital Modem Design and Implementation for High-Speed Aerial Backbones

Wentian Zhang

Thesis: An Efficient Electronic Nose System For Odour Analysis And Assessment

Xiangyu Zhang

Thesis: Three Dimensional Discrete Element Modelling of Open-ended Tubular Pile Penetration in Weak Rocks

Lei Zheng

Thesis: Forward Osmosis for Wastewater Reclamation: Trace Organic Contaminants Removal and Cooling for Post-combustion CO₂ Capture

Yun Zou

Thesis: The Role That Connected and Automated Vehicles Can Play in Re-organizing Traffic Flow: Work Zones and Emergency Services

Postgraduate

MASTER OF ENGINEERING (RESEARCH)

REEM OMAR MOHAMMAD ALQAISI

Thesis: Using Eggshell Powder as a Supplementary Additive to Lime Stabilization in Expansive Soil

Rama Kishore Bonthu

Thesis: Optimal Transactive Energy Management in Microgrids

Samuel De Carvalho Gomes

Thesis: Effect of Recycled Natural Water Treatment Sludge and Biochar on the Mechanical Performance and Hydration Kinetics of Portland Cement Composite

Md Imam Hossain

Thesis: Modelling and Simulation of Multiple Galloping Quadrupedal Dynamics

Mandeep Singh

Thesis: Size Effects On Flow Stress And Springback Behaviour In Micro Metal Forming

Cibele Sanchez Roboredo

Thesis: Balanced Alkali Limit in Cement for Alkali-silica Reaction Risk-free Concrete Production

Jialiang Shen

Thesis: Single Image Super-Resolution Via Deep Dense Network

Doctor of Philosophy

DOCTOR OF PHILOSOPHY

Ahmed Almasoud

*Thesis: Smart Contracts for
Blockchain-based Reputation
Systems*

Mohammad Dahman A Alshehri

*Thesis: Intelligent Trust Management
Methodology for the Internet of
Things (IoT) To Enhance Cyber
Security*

Ryan Mansor A Alturki

*Thesis: Improving Mobile Fitness
and Weight Loss Apps to Help
Saudis Overcoming Obesity Case
Study: Akser Waznk App*

Arwa Darwish M Alzughaibi

*Thesis: Models of Human Movement
Detection in Video Frames Using
Machine Learning Technology*

Georges Bou Ghantous

*Thesis: A DevOps Reference
Architecture for Multi-Cloud IoT
Applications Deployment*

Edmund James Brownlow

*Thesis: Data Driven Customer
Engagement in Australian
Superannuation*

Jorge Castro Gallardo

*Thesis: Novel Models in
Recommender Systems and
Group Recommender Systems for
Improving Recommendations*

Sarah Nicole Champion

*Thesis: Designing Online
Experiences for Queer Women:
A Multidimensional Framework
for Queer User Experience in
Heterosexual Cyberspace*

Pattanapong Chantamit-o-pas

*Thesis: A Predictive Analysis Of
Electronic Healthcare Records For
Stroke Symptoms*

Xinyuan Chen

*Thesis: Learning for Visual Synthesis
and Transformation*

Aneesh Srivallabh Chivukula

*Thesis: Game Theoretical Adversarial
Deep Learning Algorithms for Robust
Neural Network Models*

Manna Dai

*Thesis: Research on Object Tracking
Technology for Orderless and
Blurred Movement under Complex
Scenes*

Duc Minh Quan Do

*Thesis: Scalable Factorization Model
to Discover Implicit and Explicit
Similarities Across Domains*

Quynh Ngoc Thuy Do

*Thesis: Intelligent Methods to
Identify Incorrect Reviews in Cloud
Reputation Systems*

Yali Du

*Thesis: Design and Evaluation of
Factorization-Based Algorithms for
Recommendation Systems*

Hehe Fan

*Thesis: From Video Classification
to Video Prediction: Deep Learning
Approaches to Video Modelling*

Mahmoud Gamal Ahmed Bekhit

*Thesis: Resource Allocation and
Optimal Scheduling of Virtual
Network Functions in Software
Defined Networks*

Soheila Gheisari

*Thesis: Computer-Aided Diagnosis
Systems In The Classi_Cation Of
Neuroblastoma Histological Images*

Feng Gu

*Thesis: Concept Drift Detection For
Machine Learning With Stream Data*

Liang Hu

*Thesis: Non-IID Recommender
Systems: A Machine Learning
Approach*

Ruiqi Hu

*Thesis: Learning and Representing
Attributed Graphs*

Mohammed Abdulaziz M Ikram

Thesis: AI-driven Service Broker for Simple and Composite Cloud SaaS Selection

Mohammed Ahmed Jaddoa

Thesis: Automated Evaluation System Of Stress In Cattle

Inigo Jauregi Unanue

Thesis: Improving Low-resource Named-entity Recognition and Neural Machine Translation

Shuai Jiang

Thesis: Constrained Low-rank Matrix/Tensor Factorisation

Chaowang Lan

Thesis: Application of Information Theory to RNA-sequencing Data Sets for Better Understanding of Human Cancers

Ngoc Thuy Le

Thesis: A Novel Capability Maturity Model With Quantitative Metrics For Securing Cloud Computing

Caoyuan Li

Thesis: Nonparametric Bayesian Models for Signal Processing.

Lina Li

Thesis: Image Co-saliency Detection and Co-segmentation from The Perspective of Commonalities

Yutian Lin

Thesis: Deep Learning Approaches To Person Re-Identification

Caihua Liu

Thesis: Empirical Investigation of the Factors Influencing Data Completeness in Electronic Medical Records

Feng Liu

Thesis: Towards Realistic Transfer Learning Methods: Theory and Algorithms

Wanqi Liu

Thesis: Efficient Query Processing and Analytics on High Dimensional Data

Yuansheng Liu

Thesis: Data Mining For High Performance Compression of Genomic Reads And Sequences

Behnam Maleki

Thesis: Active Perception for Deformable 3D Pointclouds

Yurui Ming

Thesis: Generalization of Deep Neural Networks for EEG Data Analysis

Farhan Mohammed

Thesis: Adopting Machine Learning Technology for the Classification of Parkinson's Disease

Ine Mols

Thesis: Design for Everyday Life Reflection

Alva Hendi Muhammad

Thesis: Integrating Evaluation into Development of Knowledge-Based System for Adaptive E-learning System

Alexandra Nicki Murray-Leslie

Thesis: The Liberation of the Feet: Computer Enhanced Footwear For Theatrical Audiovisual Expression

Fatuma Namisango

Thesis: Realising Service Co-creation Through Social Media: A Nonprofits' Perspective

Thi Minh Chau Nguyen

Thesis: A Large-Scale Software-Defined Internet of Things Platform for Provisioning IoT Services on Demand

Suman Ojha

Thesis: An Ethically-Guided Domain-Independent Model of Computational Emotions

Dian Ouyang

Thesis: Efficient Shortest Distance Query Processing and Indexing On Large Road Network

Yuangan Pan

Thesis: Robust Rank Aggregation And Its Applications

Wilder Perdomo Charry

Thesis: How Do Colombian Software Companies Evaluate Software Product Quality?

Minh Nguyet Thi Pham

Thesis: Software-Defined Networks: Architecture for Extended SDN Applications and Resource Optimization in Cloud Data Centers

Hanieh Poostchimohammadabadi

Thesis: Improving Structured Prediction for Named-Entity Recognition

Diah Priharsari

Thesis: Value Co-Creation In Firm Sponsored Online Communities Of Interest: Enablers, Constraints, And Shaper

Faculty of Science

Doctor of Philosophy

DOCTOR OF PHILOSOPHY

Amani Alghalayini

Thesis: Extending the Uses of Lipid-membrane Coated Electrodes: Next Generation of Lipid Membrane Biosensors and Smart Implantable Cell-electrode Devices

Hala Mishaal Ali

Thesis: Investigating the Oxidoreductase Activity of Members of the Chloride Intracellular Ion Channel Protein Family

Caitlin Maree Austin

Thesis: Life in the Countryside: How Human Behaviour Shapes Fear in Eastern Grey Kangaroos

Maryna Bilokur

Thesis: Optical Thin Film Stacks Integrating Spectral and Angular Control of Solar Energy and Thermal Radiation

Iurii Bodachivskyi

Thesis: Acid-catalysed Conversion of Cellulosic Biomass into Value Added Small Molecules

Denis Patrick Boulais

Thesis: Preserving Lumbar Spine Health For the Australian Cleaning Industry

Daniel Bouzo

Thesis: Unlocking the Secrets of an Ancient Antimicrobial, Honey, Using Modern Transcriptomic Techniques

Sharon Maree Bowen

Thesis: Quantifying the Water Needs of Flood-Dependent Plant Communities in the Macquarie Marshes, South-Eastern Australia

Larissa Marie Calarco

Thesis: Mining the Genetic Diversity of the Pathogenic Protozoan Neospora Caninum

Chaohao Chen

Thesis: Multi-photon Nonlinear Fluorescence Emission in Upconversion Nanoparticles for Super-resolution Imaging

Yi Chen

Thesis: Nanomaterials Design for Lithium-Sulfur Batteries

Nga Chong Lisa Cheng

Thesis: Towards Integrative Health Care? The Perspectives and Experiences of Chinese Medicine Practitioners (CMP), General Practitioners (GP), and Patients.

Christian John Anthony Clarke

Thesis: Chemical Structure and Upconversion Enhancement of NaYF₄ Nanocrystals and Nanosheets

Max Laurence Cummins

Thesis: Whole Genome Sequence Analysis of Avian Pathogenic E.coli to Assess their Potential as Reservoirs of Antimicrobial Resistance and as Potential Zoonotic Pathogens

Kariyawasam Warnakula Thantrige
Roshali Thavindra de Silva

Thesis: Cetz1 In Cell Shape Control Of Haloarchaea: Understanding The Functional Divergence Of Tubulin Superfamily Proteins

Ngoc My Hanh Duong

Thesis: Applied Nanophotonics with Two-dimensional Materials

Puyu Feng

Thesis: Modelling Impacts of Climate and Weather Extremes on Wheat Cropping Systems Across New South Wales

Eva Fernandez Fernandez

Thesis: Latitudinal Study of the Role of Dimethylsulphoniopropionate in Marine Microbial Foodwebs

Rong Gan

Thesis: Plant Physiological And Biophysical Regulations Of Ecohydrological Processes In Response To Strong Climate Variability

Sicong Gao

Thesis: Analyses of Canopy Photosynthesis Derived from Three-dimensional Model Simulations of Sun-induced Chlorophyll Fluorescence

Xiaochun Gao

Thesis: Graphitic Carbon Nitride and Its Derivative Toward Energy Conversion

- Yoong Kuan Goh
Thesis: Variations of Stack Sorting and Pattern Avoidance
- Ming Guan
Thesis: Controlled Synthesis to Produce Upconversion Materials with Multicolour Luminescence
- Regan Hayward
Thesis: Bioinformatic Analysis of Host-cell Gene Expression and Chromatin Accessibility in Response to Chlamydia Trachomatis Infection
- Hao He
Thesis: Cancer In-Vitro Diagnostics Using Upconversion Nanoprobe
- Jie He
Thesis: Influences of Rainfall Pattern Changes on Vegetation Dynamics of Savanna Ecosystems in Australia Under Climate Change
- Erin Nicole Heather
Thesis: The Synthesis and Chemical Profiling of 3,4-Methylene-dioxymethamphetamine (MDMA) and Analogues
- Valentina Hurtado Mc Cormick
Thesis: THE ZOSTERA MUELLERI SEAGRASS MICROBIOME
- Hon Hwang
Thesis: Statistical Analysis on Distributed Systems
- Naomi Liza Indigo
Thesis: Safeguarding the Northern Quoll. Can We Mitigate Cane Toad Impacts Through Conditioned Taste Aversion?
- Kenji Iwasaki
Thesis: Algal Bioproducts – Investigating the Effect of Light Quality on Metabolite Production by Photosynthetic Diatoms
- Ana Cristina Jaramillo Madrid
Thesis: Diversity and Engineering of Diatom Metabolism for New and Improved Sterol Products
- Alexa May Kaufer
Thesis: Retracing The Evolutionary History Of The Trypanosomatidae: The Use Of Kinetoplast DNA In Molecular Systematics, Species Identification And Diagnostics
- Alicia Khuu-Maitre
Thesis: Dual Detection of Latent Fingermarks and DNA
- Mikael Kim
Thesis: Molecular and Cellular Investigations of Photosynthesis Driven Carbon Fixation in the Seagrass Zostera Muelleri.
- William King
Thesis: Interrogating The Microbiome For Improved Understanding Of Pacific Oyster Diseases
- Naomi Koh Belic
Thesis: New Stemsation: A Comprehensive Analysis of Adipose Stem Cells
- Daniel William Griffiths Krix
Thesis: Understanding the Ecological Impacts of Fire Trails in National Parks at a National Scale
- Caitlin Alinya Lawson
Thesis: Gas Powered Reefs: Exploring the Nature and Variability of the Coral Volatilome
- Du Li
Thesis: Design and Synthesis of Multifunctional Nanoparticles for Multi-modal Imaging and Theranostics Applications
- Jiayan Liao
Thesis: Optical Fingerprints of Upconversion Nanoparticles for Super-Capacity Multiplexing
- Kevin Lu
Thesis: Practical Detection of Stock Price Manipulation
- Shamona Maharaj
Thesis: Stress, Anxiety, and Depression: Prevalence and Associations to Electroencephalography and Cognitive Performance in Healthcare Professionals
- Alan Andrew Malecki
Thesis: Aggregation in Regression Analysis of Very Large Time Series Datasets
- Pappu Kumar Mandal
Thesis: Escherichia Coli Bacteriophages As Candidates For Phage Therapy And Their Involvement In Membrane Vesicle Biogenesis
- Jessica Maree McKinnon
Thesis: Genomic Characterisation of Extra-intestinal Pathogenic Escherichia Coli from Human Infection

Chao Mi

Thesis: Ratiometric Nanothermometry Based On the Phonon Assisted Anti-Stokes Luminescent Materials

Kirsty Milner

Thesis: The Price of Heat Stress: Functional and Resource Constraints to Thermal Tolerance in Arid Zone Plants

Ahmad Yusri Bin Mohd Yusop

Thesis: A Forensic Investigation into the Presence of Phosphodiesterase 5 Inhibitors as Adulterants in Herbal Remedies

Dayanne Cristiane Mozaner Bordin

Thesis: Sweat As an Alternative Sample in Doping Control

Tara Nguyen

Thesis: Electronic Cigarettes: Neurological Effects on Murine Offspring and the Response of Neuronal Cells

Tui Hiraka Nolan

Thesis: Variational Bayesian Inference: Message Passing Schemes and Streamlined Multilevel Data Analysis

Margaret Ramarajan

*Thesis: Development of a Molecular Toolkit to Genetically Engineer the Microalga *Nannochloropsis Gaditana* CCMP526 for Biotechnology Applications*

Cameron James Reid

*Thesis: Genomic Epidemiology of Multidrug Resistant Porcine Commensal *Escherichia Coli**

Jorge Luis Reyna Zeballos

Thesis: A Systematic Approach To Designing, Implementing And Evaluating Learner-Generated Digital Media Assignments (LGDM) In Undergraduate Science Students And Its Effect On Self-Regulation.

Mickael Thomas Ros

Thesis: Adaptive Strategies of Carbon Transformation amongst Coral Symbionts (Symbiodiniaceae)

Kate Samardzic

Thesis: Investigating the Toxicity and Mechanisms of Non-protein Amino Acids

Xiao Tang

Thesis: Development of Novel Materials for High-Performance Energy Storage Devices

Vitor Cesar Taranto

Thesis: Improving Detection and Identification Methods for Volatile Organic Explosives

Mark Thomas

Thesis: Elucidating the Chlamydial Growth Characteristics, Infection Factors and Host Responses to Persistent Chlamydial Infections in Women

Thi Thu Thuy Tran

Thesis: Acupuncture as an adjunct therapy to Counselling for Refugee Survivors at NSW Service for the Treatment and Rehabilitation of Torture and Trauma Survivors (STARTTS)

Megan Truong

Thesis: Drug Repurposing: Fast-tracking Antifungal Drug Discovery for Cryptococcal Meningitis

Daniel Ryan Turkewitz

Thesis: Harnessing the Newly Discovered Antioxidant Capabilities of the Moonlighting CLIC Proteins- Investigating Both Their Intra and Extracellular Actions

Tea Kristiane Espeland Uggen

Thesis: The Use of Machine Learning Algorithms and Statistical Models to Classify Aphasia Severity

Elizabeth Valentin

Thesis: Staphylococcus Aureus Bacterial Resistance to Silver Nanoparticle: The Emergence and the Mechanisms of Resistance

Navpreet Kaur Walia

*Thesis: Effect of Culture Conditions on Recombinant Protein Production in *Chlamydomonas Reinhardtii**

Shuang Wang

Thesis: Atmospheric Density Currents: Impacts on Aviation over NSW and ACT

Mika Tham Westerhausen

Thesis: Quantitative Immuno-mass Spectrometry Imaging by Laser Ablation-inductively Coupled Plasma-mass Spectrometry

Ethan Robert Wyrsh

*Thesis: An Epidemiological Analysis of Antimicrobial Resistance in *Escherichia Coli* of Porcine Agricultural Origin*

Yam Guojun Jerald

Thesis: Using Full Genome Sequence to Compare Pathogenic and Non-pathogenic Isolates of Theileria Orientalis in Australia

Kang Yan

Thesis: Investigations for Dendrite Suppression in Lithium and Sodium Metal Batteries

Xingxing Yu

Thesis: Design of Highly Efficient Non-noble Electrocatalysts for Water Reduction and Oxidation

Razia Zakarya

Thesis: Epigenetic Modulation of Small Airway Fibrosis in Chronic Obstructive Pulmonary Disease

Tiziana Maria Vittoria Zingali

Thesis: Genomic analysis of multi-drug resistant porcine commensal Escherichia coli sourced from a commercial production operation in Australia

Postgraduate

MASTER OF SCIENCE (RESEARCH)

Emily Bathgate

Thesis: Application of Microanalytical Techniques to the Study of Primary and Secondary Minerals in Terrestrial and Extra-terrestrial Rocks

Santiago Cuartas Villa

Thesis: Effects Of Global Climate Change On An Abundant And Widely Distributed Reptile (Amalosia Lesueurii)
